

Getting to the Santa Rosa Regional Water Reuse System Laguna Treatment Plant –

Address: 4300 Llano Road, Santa Rosa, CA 95407

Please enter through the Middle gate and follow the signs to the Admin Building. There is a lot of construction traffic occurring in addition to our normal operational traffic – please look out for pedestrians and large trucks.

Exiting the facility is through the North gate (there are plenty of exit signs when you are on your way out)
