

**Current 319 Nonpoint Source Grants in North Coast Region
(Updated 8/26/2022)**

Eel River Watershed

Agreement #	Grant Name	Type	Grantee	Description	Start Date End Date	Grant Amount
D2013114	Tenmile Creek Streambank Erosion Prevention and Riparian Restoration Project	319h	Eel River Recovery Project	Stabilize stream bank on eroding tributary locations within the Tenmile Creek watershed using bioengineering techniques and riparian planting to reduce sediment contributions and reduce solar loading affecting water temperatures.	5/1/2021 – 3/31/2024	\$473,500
D22 - TBD	Eel River Road Sediment Treatment Project – Phase 2	319h	Mendocino County RCD	Reduce sediment delivery to streams and improve anadromous fish habitat on a variety of properties in the Noyo River, Big River and Navarro River watersheds, important watersheds for coho salmon and steelhead trout production, with the goal of delisting these watersheds for sediment and temperature impairment.	5/1/2022 – 3/30/2025	\$608,886
\$ 1,082,386						

Forsythe Creek Watershed

Agreement #	Grant Name	Type	Grantee	Description	Start Date End Date	Grant Amount
D1813109	Post-Fire Recovery from the Redwood Fire	Timber Fund	Mendocino RCD	Upgrade & storm-proof 26 sites along 14 miles of road on four ranch ownerships. Revegetate 240 acres of burned hill slopes.	4/1/2019 – 12/31/2022	\$749,507
\$ 749,507						

Scott River Watershed

Agreement #	Grant Name	Type	Grantee	Description	Start Date End Date	Grant Amount
D2113117	Scott River EFM Road Mill Creek Sediment Reduction Improvements	319h	Five Counties Salmonid Conservation Program	Reduce sediment delivery to tributaries of the Scott River by treating several urgent or high priority sites, which includes stream crossings, road crossings, and misaligned culverts.	4/1/2022 – 6/30/2025	\$432,000
\$ 432,000						

**Current 319 Nonpoint Source Grants in North Coast Region
(Updated 8/26/2022)**

Shasta River Watershed

Agreement #	Grant Name	Type	Grantee	Description	Start Date End Date	Grant Amount
D1913111	Parks Creek Riparian Improvement	319h	Shasta RCD	Stabilize streambank, fencing, riparian plantings, stock watering systems on Parks Creek between I-5 bridge and State Hwy 99.	4/30/2020 – 1/31/2023	\$609,263
D2013115	Hart Ranch Stock Watering and Riparian Fence Project	319h	California Trout, Inc.	Install fencing, stockwater, riparian plantings, and irrigation infrastructure that supports 1707 dedication and Hart Ranch Safe Harbor Agreement.	6/1/2021 – 10/31/2023	\$674,129

\$ 1,283,392

Russian River Sub-Watersheds

Agreement #	Grant Name	Type	Grantee	Description	Start Date End Date	Grant Amount
D2013116	Post-Fire Recovery and Sediment Reduction in Mark West Creek	319h	Sonoma RCD	Post-Fire Recovery and Sediment-Reduction into Mark West Creek by re-constructing a retaining wall destroyed in the 2017 Tubbs Fire.	6/1/2021 – 3/31/2024	\$402,358
D2113118	Post-Fire Recovery in Russian River Subwatersheds	319h	Sonoma RCD	Reduce loading of sediment as well as other toxins in the Russian River Watershed from lands in Sonoma County impacted by recent wildfires in Northern California. Project activities will include planning and implementation of a suite of postfire best management practices (BMPs) on burned lands.	4/1/2022 – 6/30/2025	\$632,782

\$ 1,082,386

Current Regional Total \$ 4,582,425
