**Subject:** **Septic regulations**

I request more time and information given out before you do any voting on new septic regulations for people who own homes near the Russian River. This is going much too fast. I have only just heard about your proposals but you need to do a better job of informing us just exactly why and how you are coming up with your statistics on the Russian River water. Do not schedule a vote at your November 19th meeting for the North Coast without letting us have some input. Thank you, Donna Bley
