Subject: Plan no good for valley economy
Date: Tuesday, January 03, 2017 9:19:18 AM

State water board,

I oppose your plan to increase flows in the Stanislaus and other rivers because the economic impact to the valley could be more than \$8.5 billion annually. The plan could divert more than 300,000 acre-feet of water away from agriculture. Farmers will have no choice but to pump more groundwater to keep crops alive. That would happen at the same time the state is directing counties to enact sweeping policies to sustainably manage critical groundwater supplies. There is no scientific research that more water equals more fish. Please stop the plan.

Thank you.

Betty Garcia
Stockton

List of Submitters: Save the Stan-Letter Writing Campaign

The following people submitted the same form letter or a letter of similar text. The State Water Board received a total of approximately 329 copies of letters addressing similar talking points.
