Dear Clerk to the Board Townsend,

The proposed revisions to the East San Joaquin Waste Discharge Requirements will drive up costs to our farmers and the food they produce. This is detrimental to businesses, residents of our state and effectively drive these agricultural businesses out of state!

California has been shown to mismanage our public maintenance programs (water resources, dams, fire management, infrastructure systems) and to add more bureaucracy to this mismanagement team will only exacerbate the problems!

Sincerely,

Lizabeth Lufrano
