Deadline: 5/18/16 by 5:00 pm

May 4, 2016

Ms. Jeanine Townsend
SWB Clerk of the Board
State Water Quality Control Board
P.O. Box 100
Sacramento, CA 95812-0100
FAX # 916 341-5620

"Comments to A-2239 (a)-(c)"

Twin Peaks Orchards is our small family farm in the Placer County Foothills. Because we did have water concerns as responsible participants in agriculture we joined the PWSNs at the beginning and the cost has increased but we still are able to keep going. This system is already working.

I am (as well as my family-members) are completely against what the new proposals are going to inflict on agriculture as a whole. There is never a "one-size" fits all. The water boards needs to fix the areas that need correction, not impose the new rules across the entire state of California.

How much more are we going to have to pay to grow food, employ families of which it also is their sole income?

NO-NO-NO! to the new proposals.

Sincerely

Sheila Enriquez, owner
