Project City: Big Bear Lake

Project County: San Bernardino

Applicant Organization: San Bernardino County Department of Public Works

Applicant Name: Arlene Chun

Waterboard Staff: TBA

Brief Description of Project:

Project Description: The Pine View Drive Blue Water Channel project has been designed by the San Bernardino County Department of Public Works to alleviate impacts from historical flooding on surrounding properties.

Project Activities: The Proposed Project will increase the hydraulic capacity of the Blue Water channel on the south side of Big Bear Airport from Division Drive to Valley Blvd. The channel bottom will be widened, and side slopes will be concreted. The channel bottom will also be amended to serve as a water quality swale. Portions of the channel bottom will also be concreted at various width throughout the length of the channel. Additionally, the 90 degree turn where the drainage meets the Airport will be widened and constructed with a reduced angle to allow for proper drainage. Pavement rehabilitation will occur on Pine View Drive, the portion of Pine View Drive from Sugarloaf Blvd to Fairway Blvd will be paved (previously paved but deteriorated down to dirt/gravel).
