Long Valley Wash impacts

Check down spectrum of bridges during construction

Check down in creek between bridges

Detention Basin - August no BMPs

BMPs since construction Oct 1 00 - present

Current BMPs don't seem adequate

We consider it a construction basin

Basin catches all site flow from storm drain

Mitigation

It is possible that the property is not for sale and

expect to be able to purchase property and

need to find the land in the middle

Financing expected next 60 days

Armenia

200' sections on one side with water on one side

Check down w/ flow to divert water
