

Appendix L

Agenda

Roripaugh Ranch
February 27, 2007

1. INTRODUCTIONS

2. MEETING PURPOSE

3. PROJECT UPDATE

4. MITIGATION PROPOSALS

- Channel Maintenance
- Offsite Proposal

5. DISCUSSION of ISSUES

- Identification of Additional Issues – not provided in *Paper*
- Issues in *Paper*

What changes need to be made in the draft HMMP so that it can be implemented or is there another means to provide adequate mitigation to offset onsite impacts?

Has there been any temporal loss that was not included in the required mitigation?

Does implementation of the draft HMMP require an amendment to the HCP for Assessment District 161?

What is the proper mitigation for impacts to offsite jurisdictional waters?

Where will the approximately 11 acres of additional mitigation be implemented?

What other changes to the original permits are need to conduct maintenance activities?

Is the proposed mitigation acceptable to offset potential post-construction maintenance issues?

What mitigation would be needed for maintenance of the offsite portion of the channel?

Beam in Long Valley Channel

6. ACTION ITEMS

FW suggests UCR Proposal

Preservation

Butter sites with

Management & Enhancement

Total impacts ≈ 6 ac

They will talk to UCR about 20 ac

Corporation wants to just preserve

Corps ok w/ higher ratio $\approx 3:1$ total impacts ≈ 18 acres water

FW wants some management such as weed management & hydroseed

Center for Land Management will pool management \$ with existing
