

Memorandum of Understanding

Between

Lake Cuyamaca Recreation and Park District (DISTRICT)

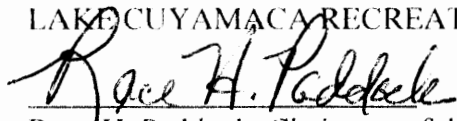

And

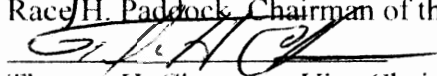

California State Parks, Colorado Desert District (STATE PARKS)

DISTRICT and STATE PARKS mutually agree to the following:

1. STATE PARKS and the DISTRICT mutually agree the area designated as the Septic System Limitation Zone on the attached map is set aside for the operation of a single septic system serving the DISTRICT and no additional septic system will be allowed within this area. The septic system will be operated to dispose of 1200 gallons per day or more in accordance with Discharge Order No. R9-2004-0015 issued by the Regional Water Quality Control Board, San Diego.
2. The DISTRICT will cease the current discharge of septic system effluent at the currently permitted surface discharge site on STATE PARKS land immediately upon approval by the Regional Water Quality Control Board for the use of the septic system installed on DISTRICT property within the Septic System Limitation Zone.
3. The DISTRICT agrees to allow STATE PARKS to develop and maintain a connecting trail across DISTRICT property on a mutually agreed route.
