

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
SAN DIEGO REGION

ERRATA SHEET
ITEM NO. 10

TENTATIVE GENERAL ORDER NO. R9-2008-0130

WASTE DISCHARGE REQUIREMENTS
FOR EXISTING DAIRY ANIMAL FEEDING OPERATIONS
IN THE SAN DIEGO REGION

Replace Finding number 6 with the following:

6. Maximum milking herd size for each existing dairy AFO, as summarized in Table 2, is defined by their previous NPDES requirements or WDRs, with the exception of Dowle Dairy whose herd size is defined by Resolution No. R9-1995-0023. This Resolution adopted a Negative Declaration for an increase in milking cow herd size to 600 milking cows at Valley View Dairy (now Dowle Dairy).

Table 2. Existing Dairy AFOs Maximum Milking Herd Size

	Name	Order No.	Maximum Number of Milking Cows
a.	Dowle Dairy	95-023	600
b.	John Konyn Dairy	95-013	440
c.	Frank J. Konyn Dairy	00-163	695
d.	Stiefel Dairy	07-009	1500
e.	T.D. Dairy	01-028	675
f.	Van Ommering Dairy	94-134	485
g.	Bert Verger Dairy	94-126	530
i.	Wesselink Dairy	07-042	699

Replace the following text under Eligibility A.2:

2. The Van Ommering Dairy, T. D. Dairy, Frank J. Konyn Dairy, and Stiefel Dairy are enrolled under this Order upon rescission of their individual NPDES permits or upon submission of the application (Attachment B).

Replace the following definitions in Appendix C with the following:

8. "Existing dairies" is defined as all dairies that were subject to waste discharge requirements or National Pollutant Discharge Elimination System permits prior to requesting coverage under this General Order.
