

SUPPLEMENTAL EXECUTIVE OFFICER  
SUMMARY REPORT  
December 10, 2008

ITEM: 10

SUBJECT: General Waste Discharge Requirements for Existing Dairy Animal Feeding Operations in the San Diego Region (tentative Order No. R9-2008-0130) (Cathryn Henning)

PURPOSE: Consider adoption of tentative Order No. R9-2008-0130.

DISCUSSION: Dowle Dairy verbally commented (Supporting Document No. 4) on tentative Order No. R9-2008-0130, pointing out that Finding 6 of the Order did not take into account Resolution No. R9-1995-0023. This Resolution adopted a Negative Declaration for the increase in milking herd size at Valley View Dairy (now Dowle Dairy) to 600 milking cows. Although the WDR for Valley View Dairy (now Dowle Dairy) was not amended to reflect the increase, the Dairy has been operating under the 600 milking cow maximum. Therefore, Finding 6 of tentative Order No. R9-2008-0130 will be modified as indicated in the errata sheet (Supporting Document No. 5)

The eligibility requirements did not allow for the possibility that a dairy may wish to be enrolled under both the General WDR and individual NPDES requirements. Therefore, the eligibility requirements will be modified as indicated in the errata sheet.

The definition for "existing dairies" was not clearly defined. Therefore, the definition will be clarified in a manner that does not alter the original definition, as indicated in the errata sheet.
