Rescinding Permits and Invoices

Dear Mr. Quach,

In an email sent to you on November 14, 2006, we requested the permit for Tenth Avenue Marine Terminal (TAMT) Berths 10-3 to 10-6 be rescinded (WDID 9 000001369). Dredging was completed July 15, 2006. On November 13, 2007, we received Invoice No. 0717811 requesting payment of the discharge fee for this project. Please rescind this permit and invoice as this project was completed prior to the billing cycle.

Also included in the November email was a request to rescind the permit and a previous invoice for the National City Marine Terminal (NCMT) Berths 24 project (WDID 9 000001278). This project was completed February 28, 2006, and was noted on our final monitoring report dated March 30, 2006. We followed up the request with additional emails to you on January 22, 2007, and February 12, 2007. However, we've since received another invoice for this project. Invoice No. 0714307, received November 13, 2007, requests payment of the discharge fee. Please rescind this invoice as well.

Copies of the emails and invoices are attached for your reference. Please contact me at (619) 686-6434 or agutierr@portofsandiego.org if you have any questions.

Sincerely,

Allison Gutierrez
Associate Environmental Specialist
