

ERRATA SHEET  
TENTATIVE ORDER NO. R9-2009-0048

The following revision is proposed to tentative Order No. R9-2009-0048. Revisions in the following table are shown in underline/strikeout format to indicate added and removed language, respectively.

The errata reduce the frequency of reporting for the proposed supplemental environmental project. The revision is proposed in response to a request from the South Orange County Wastewater Authority to eliminate reporting requirements. The proposed errata retain requirements to provide annual and final reports.
