

Kait Cole & Morgan Bailey, PhD

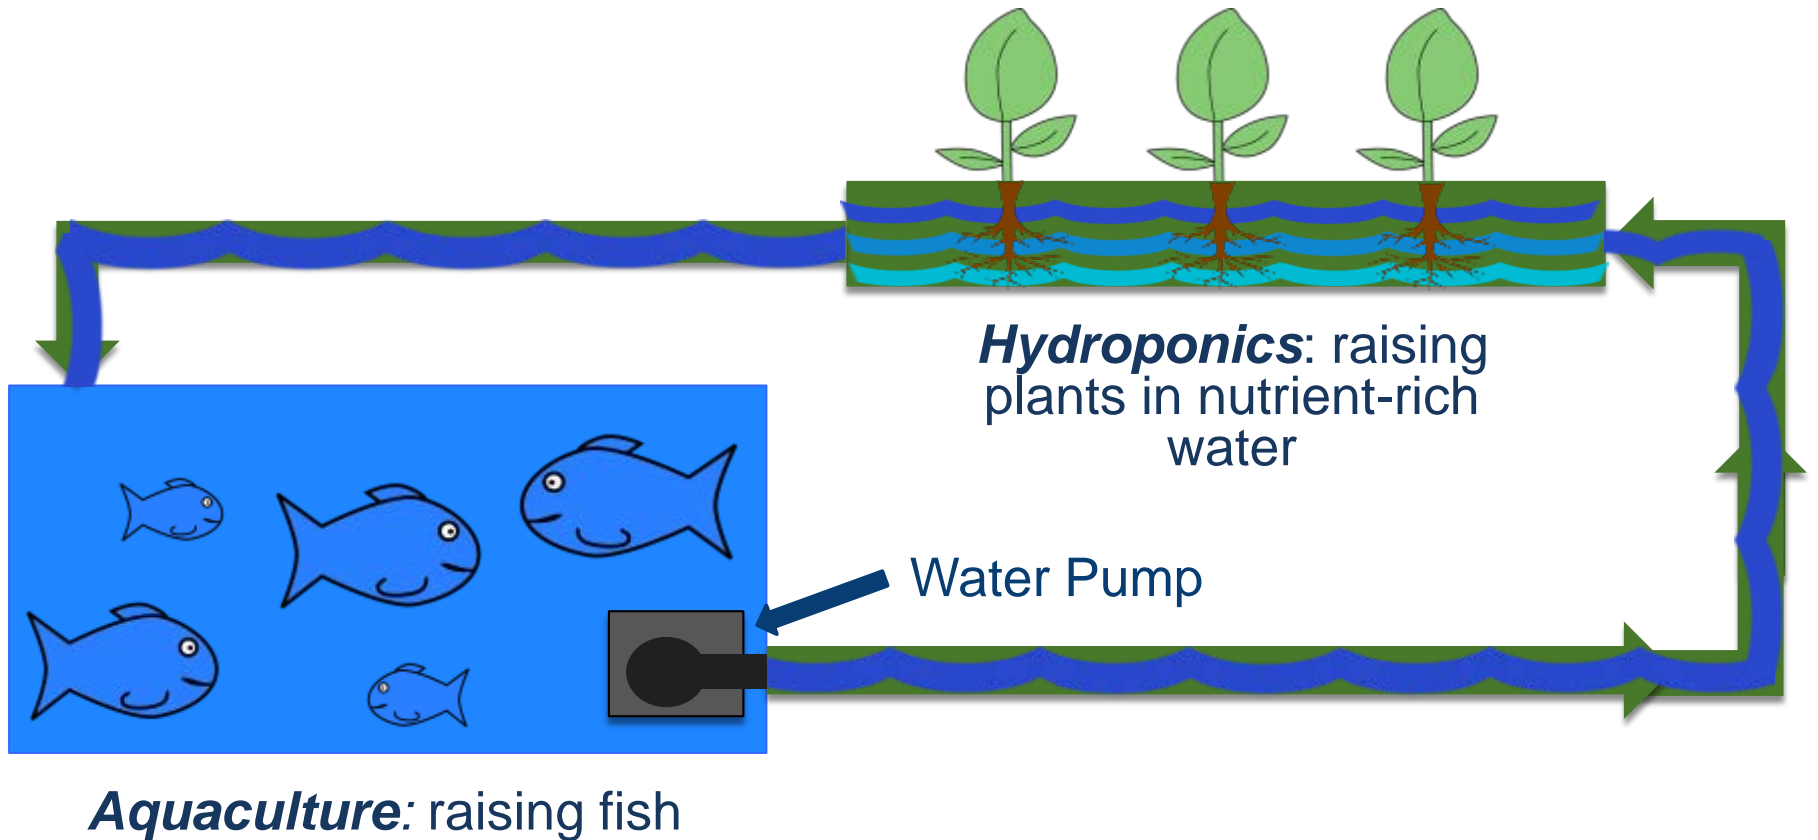

Our Purpose

ECOLIFE is an organization dedicated to a world in which people and nature prosper together. We focus on environmental sustainability and community health through simple-adaptive approaches.

What is Aquaponics?

Fish + Food → Fish Waste = Natural Fertilizer

Main Benefits

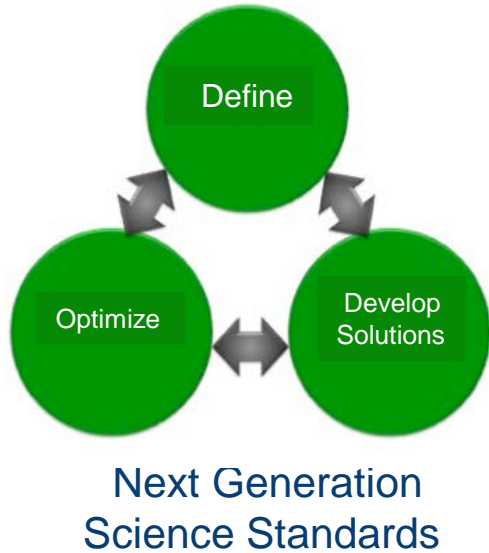

- Uses **90%** less water & land
- Keeps waste out of watershed
- Plants grow faster
- Chemical free farming
- Reduced carbon footprint
- Organic, high-quality produce
- Compact & versatile
- Soil-less system
- Easy to maintain

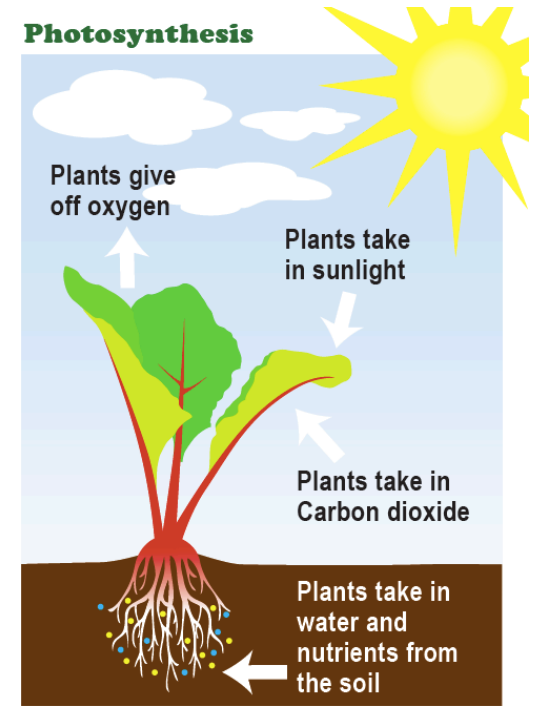

Planting Seeds of Innovation
