

Update on the Clean Water Act Section 401 Program for Dredge and Fill Material Discharges

Eric Becker, P.E.

Wetland and Riparian Protection Unit

Item No. 5

December 12, 2018

Process

- **Prioritization**
- **Triage**
- **Faster Action**

Priorities

Human Health
Funding At Risk
Type of Impacts
Threats to Property/Infrastructure
Environmental Justice

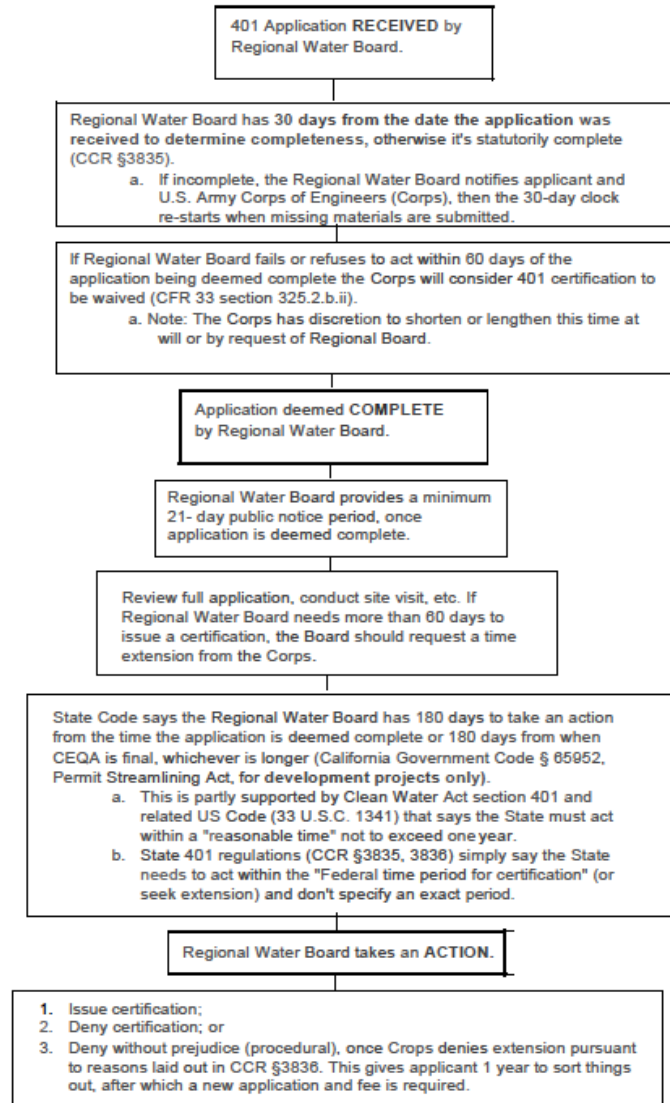

Proposed Sprouts Project

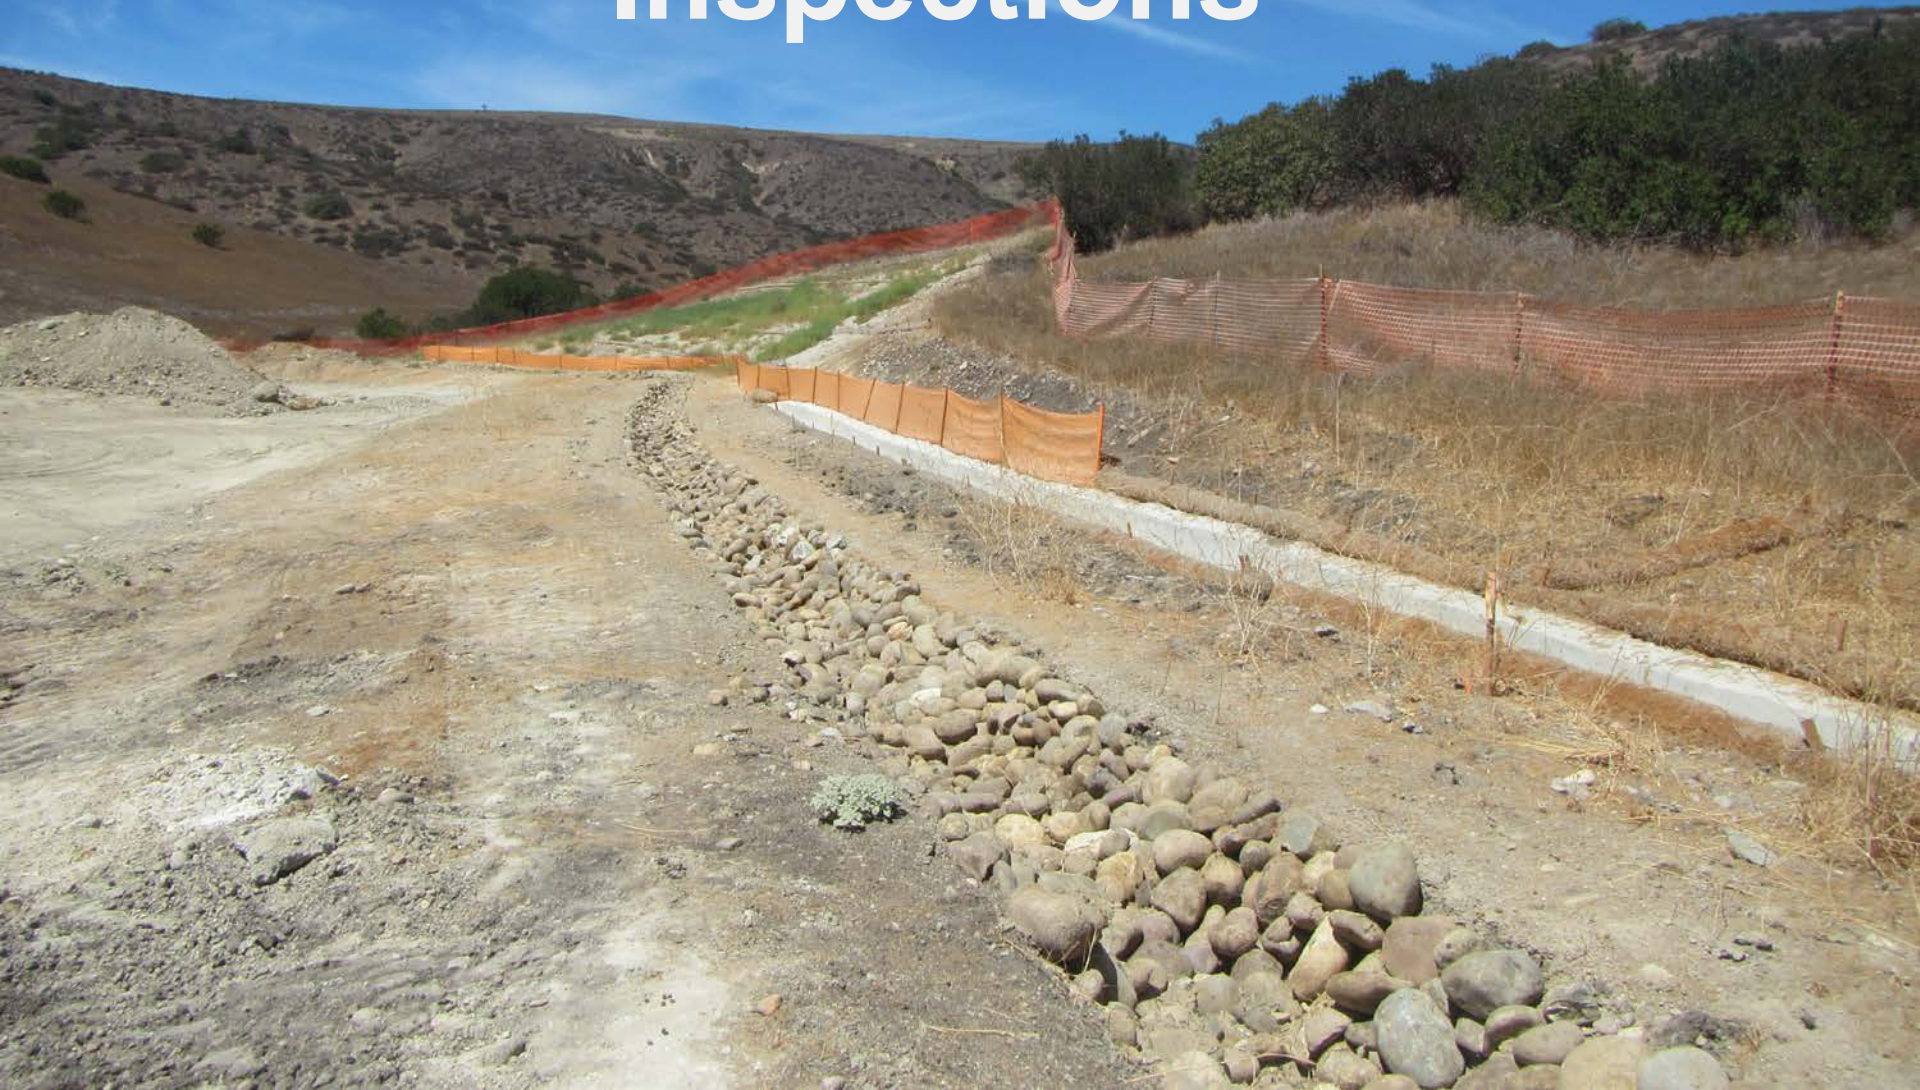

A narrow, overgrown path through dense vegetation. The path is flanked by tall, dry grasses on the right and thick green bushes on the left. The ground is sandy and littered with various pieces of trash, including plastic bottles, a red bag, and other debris. The scene is brightly lit, suggesting a sunny day.

Triage Approach

401 PROCESS FLOWCHART

Mitigation Inspections

5th Year Mitigation Inspections

A photograph showing a dirt path leading through a field of dry, scrubby vegetation. In the background, there are industrial buildings, including one with a blue and white sign that says "Arlco". The sky is clear and blue. The text "Additional Resources" is overlaid in the center of the image.
