Clean SD Program: Waste Abatement

Clean SD Program: Waste Abatement

Clean SD Program: Waste Abatement

Recommended Amendments:

- The intended purpose of the IO is to develop a new metric to supplement and/or replace fecal indicator bacteria as a compliance standard.
- The SD Water Board must approve the Responsible Parties' proposed study methodology, analysis methods and specify how the data will be used before requiring the Responsible Parties to initiate the monitoring work.
- The SD Water Board should provide an interim compliance pathway while the 4 year IO is being implemented.
