WDID: 9000001745
CIWQS:
Party No. 7222
Place No. 712345
Reg. M. No. 340665

Dear Mr. Daabas:

SUBJECT: Action on Request for Clean Water Act Section 401 Water Quality Certification for the SR-78 Emergency Corrugated Pipe Replacement Project Water Quality Certification No. 08C-007.

Enclosed is the Clean Water Act Section 401 Water Quality Certification for the SR-78 Emergency Corrugated Pipe Replacement Project. A description of the project and project location can be found in the project information sheet, project location map, and project site maps which are included as Attachments 1 through 4. Any petition for reconsideration of this Certification must be filed with the State Water Resources Control Board within 30 days of certification action (23 CCR § 3867). If no petition is received, it will be assumed that Caltrans has accepted and will comply with all conditions of the Certification. Failure to comply with all conditions of this Certification will result in enforcement actions against Caltrans.

The heading portion of this letter includes a Regional Board code number noted after "In reply refer to:" In order to assist us in the processing of your correspondence please include this code number in the heading or subject line portion of all correspondence and reports to the Regional Board pertaining to this matter.

If you have any questions regarding this notification, please contact Christopher Means directly at 858-637-5581 or by email via cmeans@waterboards.ca.gov.

California Environmental Protection Agency

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Web-site at <http://www.swrcb.ca.gov>.

Action on Request for
Clean Water Act Section 401 Water Quality Certification
and General Waste Discharge Requirements for
Discharge of Dredged and/or Fill Materials

**PROJECT: SR-78 Emergency Corrugated Pipe Replacement Project
(08C-007), WDID Number 9000001727**

APPLICANT:

**Mr. Hasan Daabas
Project Manager
Caltrans District 11, MS-221
4050 Taylor Street
San Diego, CA 92110**

CIWQS Reg. Mes. ID: 340665 Place ID: 712345 Party ID: 7222

ACTION:

- | | |
|--|---|
| <input checked="" type="checkbox"/> Order for Low Impact Certification | <input type="checkbox"/> Order for Denial of Certification |
| <input type="checkbox"/> Order for Technically-conditioned Certification | <input type="checkbox"/> Waiver of Waste Discharge Requirements |
| <input checked="" type="checkbox"/> Enrollment in Order No. 2003-017 DWQ | <input type="checkbox"/> Enrollment in Isolated Waters Order No. 2004-004 DWQ |

The project proposes to replace approximately 25 linear feet of a 5-foot by 38-foot corrugated metal pipe (CMP) that has rusted along the bottom and top. The rusted area may collapse causing a sink hole in SR-78, and could potentially result in the loss of life or road closure. The project proposes to install a larger diameter (7-foot) CMP due to the potential for high flows through the burned watershed.

STANDARD CONDITIONS:

The following three standard conditions apply to all certification actions, except as noted under Condition 3 for denials (Action 3).

California Environmental Protection Agency

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Web-site at <http://www.swrcb.ca.gov>.

Recycled Paper

1. This certification action is subject to modification or revocation upon administrative or judicial review, including review and amendment pursuant to section 13330 of the California Water Code and section 3867 of Title 23 of the California Code of Regulations (23 CCR).
2. This certification action is not intended and must not be construed to apply to any discharge from any activity involving a hydroelectric facility requiring a Federal Energy Regulatory Commission (FERC) license or an amendment to a FERC license unless the pertinent certification application was filed pursuant to 23 CCR subsection 3855(b) and the application specifically identified that a FERC license or amendment to a FERC license for a hydroelectric facility was being sought.
3. The validity of any non-denial certification action (Actions 1 and 2) must be conditioned upon total payment of the full fee required under 23 CCR section 3833, unless otherwise stated in writing by the certifying agency.

ADDITIONAL CONDITIONS:

In addition to the three standard conditions, the California Department of Transportation (Caltrans) must satisfy the following:

A. GENERAL CONDITIONS:

1. Caltrans must, at all times, fully comply with the engineering plans, specifications and technical reports submitted to the California Regional Water Quality Control Board, San Diego Region (Regional Board), to support this 401 Water Quality Certification and all subsequent submittals required as part of this certification and as described in Attachment 1. The conditions within this certification must supersede any conflicting provisions within such plans submitted prior to the certification action.
2. During construction, Caltrans must maintain a copy of this certification at the project site so as to be available at all times to site personnel and agencies.
3. Caltrans must permit the Regional Board or its authorized representative at all times, upon presentation of credentials:
 - a. Entry onto project premises, including all areas on which wetland fill or wetland mitigation is located or in which records are kept.
 - b. Access to copy any records required to be kept under the terms and conditions of this certification.
 - c. Inspection of any treatment equipment, monitoring equipment, or monitoring method required by this certification.
 - d. Sampling of any discharge or surface water covered by this Order.

4. Caltrans must notify the Regional Board within 24 hours of any unauthorized discharge, including hazardous or toxic materials, to waters of the U.S. and/or State; measures that were implemented to stop and contain the discharge; measures implemented to clean-up the discharge; the volume and type of materials discharged and recovered; and additional best management practice (BMPs) or other measures that will be implemented to prevent future discharges.
5. Caltrans must, at all times, maintain appropriate types and sufficient quantities of materials onsite to contain any spill or inadvertent release of materials that may cause a condition of pollution or nuisance if the materials reach waters of the U.S. and/or State.
6. In the event of any violation or threatened violation of the conditions of this certification, the violation or threatened violation must be subject to any remedies, penalties, process or sanctions as provided for under State law. For purposes of section 401(d) of the Clean Water Act, the applicability of any State law authorizing remedies, penalties, process or sanctions for the violation or threatened violation constitutes a limitation necessary to assure compliance with the water quality standards and other pertinent requirements incorporated into this certification.
7. In response to a suspected violation of any condition of this certification, the Regional Board may require the holder of any permit or license subject to this certification to furnish, under penalty of perjury, any technical or monitoring reports the Regional Board deems appropriate, provided that the burden, including costs, of the reports must bear a reasonable relationship to the need for the reports and the benefits to be obtained from the reports.
8. In response to any violation, or anticipated violation of the conditions of this certification, the Regional Board may add to or modify the conditions of this certification as appropriate to ensure compliance.

B. PROJECT CONDITIONS:

1. Prior to the start of the project Caltrans must educate all personnel on the requirements in this certification, pollution prevention measures, spill response, and BMP implementation and maintenance.
2. Caltrans must notify the Regional Board in writing at least 5 days prior to the actual commencement of dredge, fill, and discharge activities.
3. Caltrans must comply with the requirements of State Water Resources Control Board Water Quality Order No. 99-06-DWQ, NPDES No. CAS000003, the NPDES Permit for Statewide Storm Water Permit and Waste

Discharge Requirements (WDRs) for the State of California, Department of Transportation (Caltrans), July 1999.

4. Discharges of concentrated flow during construction or after completion must not cause downstream erosion or damage to properties or stream habitat.
5. Water containing mud, silt, or other pollutants from equipment washing or other activities, must not be discharged to waters of the United States and/or the State or placed in locations that may be subjected to storm flows.
6. All surface waters, including ponded waters, must be diverted away from areas undergoing grading, construction, excavation, vegetation removal, and/or any other activity which may result in a discharge to the receiving water. Diversion activities must not result in the degradation of beneficial uses or exceedance of water quality objectives of the receiving waters. Any temporary dam or other artificial obstruction constructed must only be built from materials such as clean gravel which will cause little or no siltation. Normal flows must be restored to the affected stream immediately upon completion of work at that location.
7. Substances hazardous to aquatic life including, but not limited to, petroleum products, raw cement/concrete, asphalt, and coating materials, must be prevented from contaminating the soil and/or entering waters of the United States and/or State. BMPs must be implemented to prevent such discharges during each project activity involving hazardous materials.

C. STREAM PHOTO DOCUMENTATION PROCEDURE:

1. Caltrans must conduct photo documentation of the project site, including all areas of permanent and temporary impact, prior to and after project construction, and mitigation areas, including all areas of permanent and temporary impact, prior to and after project construction.

D. REPORTING:

1. All information requested in this Certification is pursuant to California Water Code (CWC) section 13267. Civil liability may be administratively imposed by the Regional Board for failure to furnish requested information pursuant to CWC section 13268.
2. All reports and information submitted to the Regional Board must be submitted in both hardcopy and electronic format, with a cover referencing the subject project and certification number.

3. Caltrans must submit a report to the Regional Board within 30 days of completion of the project. The report should include as-built drawings no bigger than 11" x 17" and photos of the completed project.
4. All applications, reports, or information must be submitted to:

Executive Officer
California Regional Water Quality Control Board
San Diego Region
Attn: 401 Certification No. 08C-007, Central Watershed Unit
9174 Sky Park Court, Suite 100
San Diego, California 92123

E. SIGNATORY REQUIREMENT

1. All applications, reports, or information submitted to the Regional Board must be signed as follows:
 - a) For a corporation, by a responsible corporate officer of at least the level of vice president.
 - b) For a partnership or sole proprietorship, by a general partner or proprietor, respectively.
 - c) For a municipality, or a state, federal, or other public agency, by either a principal executive officer or ranking elected official.
2. A duly authorized representative of a person designated in Items 1.a. through 1.c. above may sign documents if:
 - a) The authorization is made in writing by a person described in Items 1.a. through 1.c. above.
 - b) The authorization specifies either an individual or position having responsibility for the overall operation of the regulated activity.
 - c) The written authorization is submitted to the Regional Board Executive Officer.
3. All applications, reports, or information submitted to the Regional Board Executive Officer must be certified as follows:

"I certify under penalty of law that I have personally examined and am familiar with the information submitted in this document and all attachments and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment."

PUBLIC NOTIFICATION OF PROJECT APPLICATION:

On February 6, 2008 receipt of the project application was posted on the Regional Board web site to serve as appropriate notification to the public. Due to the emergency nature of the project the Regional Board is waiving the 21-day public comment period for this certification.

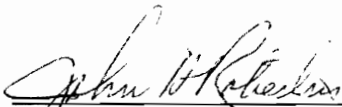

REGIONAL WATER QUALITY CONTROL BOARD CONTACT PERSON:

Christopher Means
California Regional Water Quality Control Board, San Diego Region
9174 Sky Park Court, Suite 100
San Diego, CA 92123
858-637-5581
cmeans@waterboards.ca.gov

WATER QUALITY CERTIFICATION:

I hereby certify that the proposed discharge from the **SR-78 Emergency Corrugated Pipe Replacement Project** (Certification No. 08C-007) will comply with the applicable provisions of sections 301 ("Effluent Limitations"), 302 ("Water Quality Related Effluent Limitations"), 303 ("Water Quality Standards and Implementation Plans"), 306 ("National Standards of Performance"), and 307 ("Toxic and Pretreatment Effluent Standards") of the Clean Water Act. This discharge is also regulated under California Regional Water Quality Control Board, San Diego Region, Waiver of Waste Discharge Requirements (Waiver Policy) No. 17. Please note that this waiver is conditional and, should new information come to our attention that indicates a water quality problem, the Regional Board may issue waste discharge requirements at that time. This discharge is also regulated under State Water Board Order No. 2003-0017-DWQ, "General Waste Discharge Requirements for Dredged or Fill Discharges that have Received State Water Quality Certification," which requires compliance with all conditions of this Water Quality Certification.

Except insofar as may be modified by any preceding conditions, all certification actions are contingent on (a) the discharge being limited and all proposed mitigation being completed in strict compliance with the applicants' project description and/or on the attached Project Information Sheet, and (b) on compliance with all applicable requirements of the Regional Water Quality Control Board's Water Quality Control Plan (Basin Plan).

JOHN H. ROBERTUS
Executive Officer

PROJECT INFORMATION**

Applicant: Mr. Hasan Daabas
Project Manager
Caltrans District 11, MS-221
4050 Taylor Street
San Diego, CA 92110

Applicant
Representatives: Mr. Bruce April
Chief, Environmental Stewardship
Caltrans District 11, MS-242
4050 Taylor Street
San Diego, CA 92110

Project Name: SR-78 Emergency Corrugated Pipe Replacement Project

Project Location: The project is located on SR-78, at about Post Mile 31.7, just west of Horizon View Drive, in the unincorporated community of San Pasqual Valley.

Type of Project: Emergency Road Repair

Project Description: The project proposes to replace approximately 25 linear feet of a 5-foot by 38-foot corrugated metal pipe (CMP) that has rusted along the bottom and top. The rusted area may collapse causing a sink hole in SR-78, and could potentially result in the loss of life or road closure. The project proposes to install a larger diameter (7-foot) CMP within the same footprint of the original pipe, due to the potential for high flows through the burned watershed.

A work area of 0.09 acre would be required to remove and replace the CMP. No removal of vegetation would be necessary.

Federal Agency/Permit: U.S. Army Corps of Engineers §404, Nationwide Permit 3 (non-reporting), Robert Smith

Other Required
Regulatory Approvals: California Department of Fish and Game Streambed Alteration Program Emergency Notification.

California Environmental
Quality Act (CEQA)
Compliance: On January 7, 2008 Caltrans determined that the project is Categorically Exempt from CEQA (Class 1, PRC 21084; 14 CCR 15300 et seq.)

Receiving Water: San Dieguito River HU (905.00), Santa Ysabel Creek HA (905.50), Unnamed Tributary to Santa Ysabel Creek.

Affected Waters of the United States:	The Project will result in temporary impacts to 0.09 acre (100 linear feet) of unvegetated streambed, and permanent, unavoidable impacts to 0.0017 acre (76 square feet) of unvegetated streambed. Permanent impacts are a result of replacement of a larger diameter CMP.
Dredge Volume:	n/a
Related Projects Implemented/to be Implemented by the Applicant(s):	none
Compensatory Mitigation:	Temporary impacts will be restored to pre-existing conditions, and due to the emergency situation and relatively small permanent impacts, no compensatory mitigation is proposed for the permanent impacts.
Best Management Practices (BMPs):	<p>Best Management Practices (BMPs) would be implemented including the placement of sandbag berms or reinforced silt fences to catch sand and silt. A silt trap immediately in front of the culvert would also be maintained.</p> <p>No vegetation would be removed except for the trimming of a sycamore to allow access by construction equipment.</p> <p>Debris and other material used in construction or equipment maintenance would be kept out of the channel. No storage of equipment or material within the channel is authorized.</p>
Public Notice:	On February 6, 2008 receipt of the project application was posted on the Regional Board web site to serve as appropriate notification to the public. Due to the emergency nature of the project the Regional Board is waiving the 21-day public comment period for this certification.
Fees:	<p>Total Due: \$500.00</p> <p>Total Paid: \$500.00 (check No. 221852)</p>
CIWQS:	<p>Regulatory Measure ID: 340665</p> <p>Place ID: 712345</p> <p>Party ID: 7222</p>
