

STATE OF CALIFORNIA
CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
SAN FRANCISCO BAY REGION

STAFF SUMMARY REPORT (Tong Yin)
MEETING DATE: June 15, 2005

ITEM 5A

SUBJECT: **City of St. Helena, Wastewater Treatment and Reclamation Plant, Napa County** – Reissuance of NPDES Permit

CHRONOLOGY: January 1992 – Permit reissued

DISCUSSION: The City of St. Helena (City) owns and operates a wastewater treatment and reclamation plant with capacity to treat 0.5 million gallons per day. The plant treats wastewater from residential and commercial sources within the City. In the wet season, effluent is discharged to upper Napa River. In the dry season, effluent is either stored in ponds or reclaimed for spray irrigation.

We received comments (Appendix B) on the T.O. from the City and have addressed all concerns. The Response to Comments (Appendix C) provides further details on all issues raised and the changes made to the T.O. in response. The attached T.O. reflects these changes.

**RECOMMEN-
DATION:** Adoption of the Tentative Order

FILE NUMBER: 2139.3014
