

STATE OF CALIFORNIA
CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
SAN FRANCISCO BAY REGION

STAFF SUMMARY REPORT (Michael T. Chee)
MEETING DATE: October 19, 2005

ITEM: 7

SUBJECT: **Contra Costa County - Sanitation District No. 5, Sewage Treatment Plant, Port Costa, Contra Costa County** – Hearing to Consider Adoption of Time Schedule Order

CHRONOLOGY: The Water Board has not previously enforced against the Contra Costa County – Sanitation District No. 5.

DISCUSSION: The District's wastewater treatment plant needs repairs and plant upgrades to assure future compliance with waste discharge requirements. The attached draft Time Schedule Order (TSO) will ensure that the District takes timely action to fund and complete necessary upgrades to its treatment plant. These upgrades are considered a compliance project (CP). The District proposed the implementation of the CP and has chosen to spend a previously assessed Mandatory Minimum Penalty amount of \$57,000 to help fund the CP. The CP is in accordance with State Water Board's Enforcement Policy and the entire project is estimated to cost \$500,000.

We expect no further comments on this item.

RECOMMEN-
DATION: Adopt the Draft Time Schedule Order.

File No.: 2119.1034 (MTC)
