

STATE OF CALIFORNIA  
CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
SAN FRANCISCO BAY REGION

STAFF SUMMARY REPORT (Gina Kathuria)  
MEETING DATE: December 13, 2006

**ITEM** 5C

**SUBJECT:** Seafirth Estates Company and Property Owners within the Seafirth Estates Subdivision, Seafirth Estates Wastewater Treatment Plant and its Sewage Collection System, Tiburon, Marin County - Reissuance of NPDES Permit

**CHRONOLOGY:** April 1992 – Permit issued

**DISCUSSION:** The Seafirth Estates Wastewater Treatment Plant is a very small package treatment plant treating domestic wastewater from 30 single family homes in Tiburon.

Seafirth Estates Company commented on the Tentative Order we distributed for public review. Staff responded to all comments (Appendix C), and made appropriate changes to the Tentative Order, all of which are reflected in the attached Revised Tentative Order. Primarily, Seafirth requested additional time to pursue a project that would convert its plant to a pump station and route its wastewaters to a neighboring treatment plant in lieu of necessary upgrades to its own treatment plant. The Revised Tentative Order would allow Seafirth the additional time requested. We believe that all other issues have been resolved.

**RECOMMENDATION:** Adoption of the Revised Tentative Order

**FILE NUMBER:** 2159.5051

**APPENDICES:** A- Revised Tentative Order  
B - Correspondence  
C- Response to Comments

APPENDIX A  
REVISED TENTATIVE ORDER
