

STATE OF CALIFORNIA
CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
SAN FRANCISCO BAY REGION

STAFF SUMMARY REPORT (Tong Yin)
MEETING DATE: August 9, 2006

ITEM 12

SUBJECT: **City of Calistoga, Dunaweal Wastewater Treatment Plant, Calistoga, Napa County - Reissuance of NPDES Permit**

CHRONOLOGY: November 2000 – Permit reissued

DISCUSSION: The City of Calistoga owns and operates the Dunaweal Wastewater Treatment Plant, which provides treatment for domestic, commercial, and some industrial wastewater from the City of Calistoga. After secondary or tertiary treatment, the effluent is discharged to the Napa River from November 1 through June 15. During the remainder of the year, the wastewater is treated to tertiary standards and distributed for recycled water use or stored for future use or disposal.

We received letters on the Tentative Order (T.O.) from the City of Calistoga, U.S. EPA, and San Francisco Baykeeper (Appendix B). Several issues were raised, and we believe we have resolved them all. We have revised the T.O. as necessary. The Response to Comments (Appendix C) provides further details on the issues raised and the changes made to the Revised T.O. in Appendix A.

**RECOMMEN-
DATION:** Adoption of the Revised Tentative Order

FILE NUMBER: 2139.3003
