**Applicant Name:** Bob Paradise

**Waterboard Staff:** TBA

### **Brief Description of Project:**

Project Description: The proposed activity involves completion of the channel associated to Line A~H. This description has been prepared to support the applications for reissuance of regulatory agency permits which are required to complete outstanding obligations for the construction and maintenance of the City of Perris Master Drainage Improvements Line A~H. The majority of the original work described in the 2005 and 2017 permits is complete.

Project Activities: (1) remove sediments in the south end of Evans Channel and place a concrete connection structure to Line A~H, (this item partially complete). (2) remove and replace portions of Line A~H to its' design specifications including any temporary outflow connecting to PVSD, (this item partially complete). (3) remove sediments within and adjacent to the jurisdictional limits of PVSD, expansion of the PSVD and Right of Way (ROW), (this item completed, additional work may be required during Item 2 above). (4) place three (3) outflow structures between Tract 30850 water quality basins and PVSD, (this item complete). (5) placement of an all-weather access ramp to PVSD from Orange Street (this item complete) (6) provide for an agreement for the Long-term maintenance by Riverside County flood Control District (not complete).
