OVERVIEW

Notice is hereby given that staff of the State Water Resources Control Board (State Water Board or Board), Division of Water Rights, will hold a virtual public workshop about the new California Water Accounting, Tracking, and Reporting System (CalWATRS). CalWATRS is the state's new and improved water rights data system. With CalWATRS, water right holders now have a streamlined way to view all their water right records, file annual reports, and request water rights services.

DETAILS

At this workshop, Board staff will demonstrate the system's key features and answer questions. The event will focus on water right holders and agents who must register for an account, connect to water right records, and submit annual water diversion and use reports. If time permits, Board staff may demonstrate new mapping functions that allow the public to view water rights by stream and watershed.

HOW TO PARTICIPATE

This workshop will be held via Zoom. Registration is not required. To access the workshop, use the following Zoom link or follow the instructions to join by phone:

- Zoom: bit.ly/CalWATRSVirtualWorkshop, Passcode: 831478
