This Agency Status Report has been prepared as an in-kind task as a part of the Cooperative Agreement LS-99T10301 between U.S. Environmental Protection Agency (USEPA) Region 9 and the California State Water Resources Control Board (State Water Board). It presents GeoTracker data on performance metrics such as for leaking underground storage tank (LUST) case closure rates, average case age, paths to closure, response time to submittals, case load status for nine Regional Water Quality Control Boards (Regional Water Boards), and 18 Local Oversight Program Agencies (LOP) Agencies, with open cases through California Fiscal Year 2013/2014 (CA FY 2013/2014), as well as a comparison to previous fiscal years (FYs).

Photo: Removal of a UST at a former gas station

Agency Type	Cases Closed for CA FY 2013/2014	Closure Rate for CA FY 2013/2014
State and Regional Water Boards	702	15.8%
LOPs	580	22.2%
Statewide†	1289	18.1%

† Includes cases assigned to and closed by former LIA and LOP Agencies in GeoTracker during CA FY 2013/2014 otherwise not presented in this report.

Figure 1: California Net and Gross Case Closure Rates.

Source: CA FY '13/'14 data were taken from the GeoTracker Advanced Case Reporting Tool on 7/22/2014. Data for previous fiscal years were taken from previous Agency Status Reports.

For a breakdown of closure rates by agency, see Table 1.

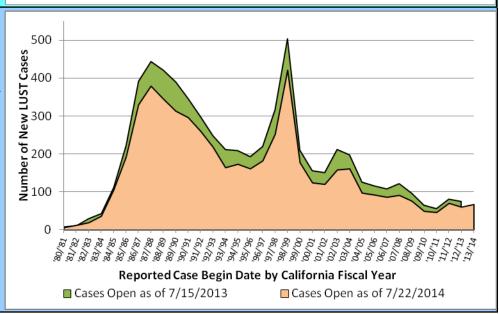

(The explanations for numbered footnotes can be found on the last page of this report.)

Figure 2: Year on Year Comparison of LUST Case Begin Dates

Figure 2 shows a year on year comparison of reported case begin dates for LUST cases open in GeoTracker on 7/15/2013 and 7/22/2014. The difference between the two represents the cases closed during CA FY 2013/2014.

Source: Case begin dates were taken from the GeoTracker Advanced Case Reporting Tool Report on 7/22/2014, and 7/15/2013. For cases without a valid begin date, the Report Dates were compiled directly from GeoTracker on 7/22/2014, and 7/15/2013.

Annual Agency Status Report (continued)

Source: All FY 2013/2014 case closure data in **Table 1** were taken from the GeoTracker Advanced Case Reporting Tool on 7/22/2014. Historical closure rate data were previously compiled from the GeoTracker Advanced Case Reporting Tool on 7/22/2013. Data for California FY 2013/14 Funding per Case Closure were compiled from agency budget data provided by the State Water Board in July 2013 and case closure data compiled from the GeoTracker Advanced Case Reporting Tool on 7/22/2014. Data for California FY 2014/15 Funding per Open Case were compiled from agency budget data provided by the State Water Board in July 2014 and data exported from the GeoTracker Advanced Case Reporting Tool on 7/22/2014. Military UST Site data were compiled from the GeoTracker Cleanup Sites Data Download on 7/15/2014. (available at: https://geotracker.waterboards.ca.gov/data_download.asp).

Source: All Case Status data shown on Overall Case Status tables were exported from the GeoTracker Cleanup Sites Data Download on 7/15/2014 (available at: https://geotracker.waterboards.ca.gov/data_download.asp) and the GeoTracker Regulatory Activity Report for LUST Cleanup Sites on 7/15/2014. "Total Number of Cases" presented here does not include Military UST Sites and so may not match the numbers presented in Table 1.

Note: Data presented for "Open - Remediation" also include cases with an assigned status of "Open - Assessment & Interim Remedial Action" in GeoTracker

Figure 3: Performance Measures Report: Cases Reviewed FY 13/14 for Regional Water Boards

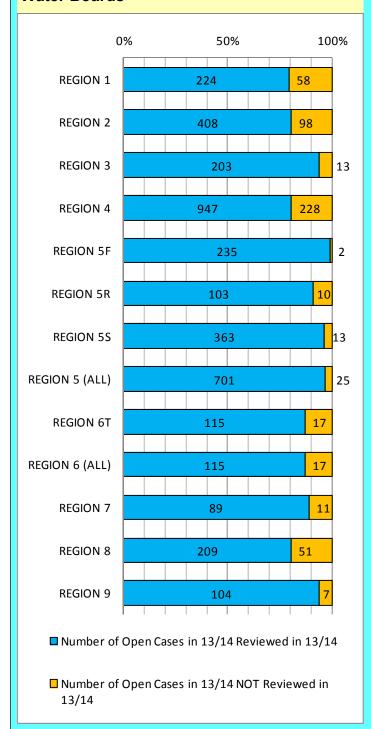

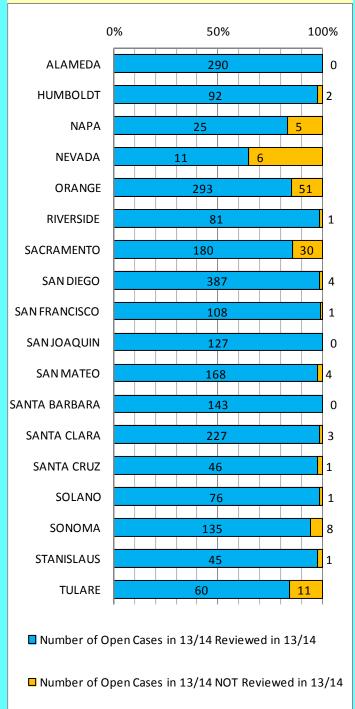

Figure 4: Performance Measures Report: Cases Reviewed FY 13/14 for LOPs

Figures 3 & 4 show a comparison of the number of cases which have had at least one enforcement action, compliance response marked as reviewed 'Yes', a site document uploaded, or a status change between 7/1/2013 and 6/30/2014 against those which have not had such activity.

Note: The State Water Board is not included in this GeoTracker export and is therefore not included in these figures.

Source: The data for Figures 3 & 4 were compiled from the GeoTracker Performance Measures Report on 7/15/2014.

Table 9: Observations: Life Cycle of California LUST Cases

	Case Status	Average Age of Cases (Years)	Average Length of Time a Case Has Been Assigned This Status (Years)	Number of Cases Statewide ¹⁰	Percentage of Cases Open During Period Statewide
	Leak Discovered 11	67 New re	leases were report 2013/2014.	ced in CA FY	1.0%
ڃ	Open - Site Assessment	17.4	8.7	1995	30.4%
Case Progression	Open - Remediation	20.9	7.5	1410	21.5%
ase Pro	Open - Verification Monitoring	21.4	4.5	407	6.2%
ပိ	Open - Eligible for Closure	18.7	0.9	1421	21.7%
	Case Closed	17.3 ¹²	N/A	1199	18.3%
	Open - Inactive	20.0	4.5	129	2.0%
	rage Age of All Open LUST Cases (Years)		19.		

Source: Data shown in **Table 9** were exported from the GeoTracker Cleanup Sites Data Download on 7/15/2014 (Available at: https://geotracker.waterboards.ca.gov/data_download.asp) except for Case Begin Dates which were exported from GeoTracker Advanced Case Reporting Tool captured 7/15/2014.

Notes:

- 1. Net Closure Rate is calculated from the difference in the number of cases from the beginning to end of the performance period, and represents the difference in total case load during the period.
- 2. Gross Closure Rate is calculated based on the total number of cases closed, versus the number of open cases at the start of the performance period.
- Historical closure rates were calculated from data captured from the GeoTracker Advanced Case Reporting Tool on 1/15/2013; thus they may not accurately reflect actual closure rates for the periods presented due to case transfers and back-dated regulatory actions.
- 4. The State Water Resources Control Board (State Water Board) became the lead agency on some cases formerly under LIA oversight effective 7/1/2013, as such, there are no closure rate data for previous fiscal years.
- 5. Santa Cruz County became and LOP effective 7/1/2013. Santa Cruz LOP is operating without a state contract, the budget for this agency is not provided by the State of California.
- 6. Cases with multiple priority classes were counted within the highest priority class assigned.
- 7. Excludes cases with a status of Open Eligible for Closure and Completed Case Closed.
- 8. Non-Progressing cases are cases that do not appear to be progressing towards case closure. For the purpose of this report, they are defined as either cases which have had a status of "Open—Site Assessment" for 10 years or longer (as of 7/15/2014), OR cases with no documented regulatory activity in GeoTracker for at least 2 years (as of 7/15/2014). The higher of the two values was used. As such, non-progressing cases are not a separate case status in GeoTracker.
- 9. Data presented as "Cases Determined to Meet LTCP" (Low Threat Closure Policy) and "Cases Determined Not to have Met LTCP Criteria" were exported from the GeoTracker Low Threat Closure Policy Summary Report on 7/15/2014, and are taken directly from the "LTCP Criteria Met" and "LTCP Criteria Not Met" columns of that report on that date. These include cases which were subsequently closed under the LTCP Policy, and do not included cases for which a LTCP Checklist was not completed in CA FY 2013/2014.
- 10. Number includes cases assigned to LIAs and may not match values presented in figures which exclude these agencies.
- 11. "Leak Discovered" is not a case status in GeoTracker; the majority of the 1.8% of cases which are new releases will have a status of "Open Site Assessment".
- 12. The Average Age of Cases, in years, at time of closure for all LUST cases closed in California FY 2013/2014.

N/A: Not Applicable.
