## State Water Resources Control Board

February 25, 2020

Mr. Brad Fawcett  
Franklin Fueling Systems  
3760 Marsh Road  
Madison Wisconsin 53718

### **REQUEST BY FRANKLIN FUELING SYSTEMS FOR CONSTRUCTION CHANGES TO THE DEFENDER SERIES OVERFILL PREVENTION VALVE IN EXECUTIVE ORDER VR-101**

On January 20, 2020, the State Water Resources Control Board (State Water Board) received an information packet from Franklin Fueling Systems requesting a review of the Defender Series Overfill Prevention Valve (OPV) in Executive Order (EO) Vapor Recovery (VR)-101, Phil-Tite Phase I for Enhanced Vapor Recovery (EVR) Systems. This notice is to inform you that the State Water Board has no determination to make regarding the proposed modification to EO VR-101, Phil-Tite Phase I.

State Water Board staff have reviewed the proposed design changes to components of the Defender Series OPV, as described in the letter from Franklin Fueling Systems dated January 20, 2020, and have concluded that the proposed modifications do not affect the compatibility or functionality of the OPV, and therefore, do not affect the EVR determination previously issued by the State Water Board for EOs VR-101, Phil-Tite Phase I for EVR Systems.

If you have questions regarding this subject, please contact Mr. Tom Henderson at (916) 319-9128 or [Tom.Henderson@waterboards.ca.gov](mailto:Tom.Henderson@waterboards.ca.gov).
