
State Water Resources Control Board

NOTICE OF CORRECTED DATE OF RESUBMISSION

The State Water Resources Control Board
Administrative Hearings Office
held a hearing regarding the pending water-right application (A30531B) of

The City of Stockton

for a permit to appropriate water from the San Joaquin River.

On March 14, 2022, the Administrative Hearings Office (AHO) of the State Water Resources Control Board released a draft proposed order in this matter for review and comment by the parties and issued an associated Notice of Draft Proposed Order (March 14 Notice). The March 14 Notice set a deadline of April 14, 2022, for the parties to submit written comments to the AHO on the draft proposed order.

In the March 14 Notice, the hearing officer vacated the prior submission of the matter to the AHO for preparation of a proposed order. The March 14 Notice erroneously stated that the matter would be deemed resubmitted on March 14, 2022. The March 14 Notice should have stated that the matter would be deemed resubmitted to the AHO on April 14, 2022, the date on which comments from the parties on the draft proposed order were due. This notice corrects the date of resubmission of this matter to **April 14, 2022**.

Date: April 26, 2022
