Subject: How to bring use of ground water springs into compliance?
Date: Monday, September 26, 2016 9:48:47 PM

Hello,

I attended an informational meeting in Eureka, CA. At that meeting a gentleman mentioned that all springs are now jurisdictional if the water is used for cannabis irrigation.

Can you please let me know how I should permit ponds that may be filled in part by percolating groundwater?

Much thanks,
Hollie
