Subject: unfair - ill-advised water restrictions on san diego county

attn: Kathy Frevert - I am writing to oppose the unfair and ill- advised imposition of emergency water restrictions on san diego county. we have had no water shortage in the current 4-year drought thanks to having invested heavily over the past 20 years in developing a reliable water supply - I am sure you are ware of this. I request the restrictions , allocations and penalties be removed. thank you for your attention to this matter connie hucko
