Subject: Comments on Proposed Regulatory Framework

Dear Kathy:

As a residential customer of Eastern Municipal Water District I support an extension of the emergency regulations.

As a homeowner, in a HOA, I removed my turf siting AB 2104, AB 2100, AB 349, SB 992, and Civil Code section 4735 and received a violation notice and a subsequent Notice of Hearing with a list of potential penalties, so I would certainly support the "adding a prohibition against homeowners' associations interfering with certain conservation actions of their association members in violation of existing law".

Thank you for this opportunity to comment,

Cynthia Pollard
