

## Proposition 84 Storm Water Grant Program Summary Table

Grant Program	Project Eligibility	Eligible Applicants/ Funding Available
<p><b>Proposition 84 Storm Water Grant Program</b></p> <p><i>Purpose: Provide matching grants to local public agencies for the reduction and prevention of storm water contamination of rivers, lakes, and streams.</i></p> <ul style="list-style-type: none"> <li>• Proposition 84, Chapter 5 [Pub. Resource Code, § 75050(m).]</li> <li>• Assembly Bill No. 739 (Stats. 2007, Ch. 610.)</li> <li>• Assembly Bill No. 1420 (Stats. 2007, Ch. 628.)</li> <li>• Senate Bill No. 732 (Stats. 2008, Ch. 729.)</li> </ul>	<p>Grants may be awarded for projects to achieve any of the following purposes:</p> <ul style="list-style-type: none"> <li>❖ Assistance in implementing low-impact development and other onsite and regional practices, on public and private lands, that seek to maintain predevelopment hydrology for existing and new development and redevelopment projects. Projects will be designed to infiltrate, filter, store, evaporate, or retain runoff in close proximity to the source of water.</li> <li>❖ Complying with total maximum daily load (TMDL) requirements established pursuant to section 303(d) of the Clean Water Act (33 U.S.C. § 1313(d)) and Division 43 of the California Public Resources Code (PRC) where pollutant loads have been allocated to storm water, including, but not limited to, metals, pathogens, and trash pollutants. Up to \$10 million dollars, total from Round 1 and Round 2, may be used for storm water related TMDL projects.</li> </ul> <p><u>Project Preferences</u> Preference will be given to projects that do one or more of the following:</p> <p>(A) Projects that support sustained, long-term water quality improvements. (B) Projects which are coordinated or consistent with any applicable integrated regional water management plan.</p> <p><u>Additional Requirements</u></p> <p>(A) Beginning January 1, 2009, the terms of, and eligibility for, a water management grant or loan<sup>i</sup> made to an urban water supplier<sup>ii</sup> and awarded or administered by the Department of Water Resources, State Water Resources Control Board, or California Bay-Delta Authority or its successor agency shall be conditioned on the implementation of the water demand management measures described in section 10631 of the California Water Code (CWC).</p> <p>(B) The allocation of funds shall be consistent with water quality control plans (Basin Plans) and section 75072 of the PRC, which states that up to 10 percent of funds allocated, may be used to finance planning and monitoring necessary for the successful design, selection, and implementation of the projects authorized.</p> <p>(C) Grantees will be required to assess and report on project effectiveness, which may include monitoring receiving water quality, determining pollutant load reductions, or assessing improvements in storm water discharge water quality resulting from project implementation.</p> <p>(D) Prior the adoption of a negative declaration or environmental impact report for any project to be financed with Proposition 84 funds, the lead agency shall notify the proposed action to a California Native American tribe, which is on the contact list maintained by the Native American Heritage Commission, if that tribe has traditional lands located within the area of the proposed project.</p>	<p>Local Public Agencies</p> <p>Approximately \$82 million</p> <ul style="list-style-type: none"> <li>• Not to exceed five million dollars (\$5,000,000) per project</li> </ul> <p>See Table 2 in Section VI.B.i of the Guidelines for project timing.</p>

<sup>i</sup> Water management grants and loans include funding for programs and projects for surface water or groundwater storage, recycling, desalination, water conservation, water supply reliability, and water supply augmentation.

<sup>ii</sup> Per CWC, section 10617, an "urban water supplier" means a supplier, either publicly or privately owned, providing water for municipal purposes either directly or indirectly to more than 3,000 customers or supplying more than 3,000 acre-feet of water annually. An urban water supplier includes a supplier or contractor for water, regardless of the basis of right, which distributes or sells for ultimate resale to customers. This definition of an urban water supplier applies only to water supplied from public water systems subject to Chapter 4 (commencing with section 116275) of Part 12 of Division 104 of the Health and Safety Code.
