**Notes:**

The CWSRF Fundable list and Comprehensive list is prepared to meet the requirements pursuant to section 603(g) of the CWA.

1. Projects eligible for grant/PF are considered automatically on the Fundable List once a complete application is submitted and all eligibility requirements are met. DFA intends to post an updated Fundable List to its website periodically throughout the year, which will include fundable grant/PF eligible project for which a complete application was submitted after the development of this IUP. Should these projects apply for loan funding in addition, the loan component
2. Project numbers and project names are for administrative purposes only. DFA may assign or reassign project numbers and project names as necessary to administer projects.
3. The grant equivalent calculation represents the equivalent annual debt savings if the applicant were to get a grant instead of a low-interest CWSRF loan.
4. Monthly Saving per customer connection includes estimated savings from subsidized loan and grant/PF. The savings are estimated by assuming that without SWRCB funding, the applicant would incur debt service at market rates. The monthly savings per customer connection is calculated as the annual debt service savings on a 30-year loan at market rate of 4.4% compared to a similar term at the current CWSRF rate of 2.2%, spread among the applicant's
5. Estimated 2026 CWSRF Base Program & 2026 General Supplemental Capitalization Grants total \$235,892,485. PF is \$126,862,813, and administration and technical assistance is \$14,153,549. Therefore, the estimate available for loans is \$110,800,732. Proposed Equivalency Projects will be selected up to an equivalent amount equal to the 2026 Capitalization Grant Awards.
6. Green Project Types: W= Water Efficiency; E = Energy Efficiency; I = Innovative.
7. The estimated CWSRF loans funds are limited to \$50 million maximum for each new project or interrelated program on this Fundable List. The total for each project or interrelated program may be allocated or reallocated to multiple financing agreements at the request of the applicant as long as the total funding does not exceed the total on the Fundable List for the project or interrelated program. Each of the applicants recommended for partial funding appears capable of obtaining the remaining financing necessary to successfully complete the projects or interrelated programs.
