

To: State Water Resources Control Board members

The Central Valley Clean Water Association (CVCWA) has been participating in the NPDES Fee Structure workgroup. We appreciate the effort your staff has undergone to work with stakeholders in this effort.

This email is to express that we share the concerns outlined in the comment letter provided to you by the California Association of Sanitation Agencies (CASA). CVCWA is very concerned about the economic impact these large fee increases will have on its members, which include the gamut from very small to large agencies that operate under NPDES permits. We would urge the State Water Board to look towards measures to reduce costs and improve efficiency.

Debbie Webster, Executive Officer
