Hi Jeanine,

These attached comments were submitted at the 9-16-09 Hearing by:

Steve Fleischli
representing himself
stevefleischli@gmail.com

The Five-Track Approach

- Track 1 – 93% reduction (although not Dry Cooling)
- Track 2 – if “not feasible” then “comparable levels” within 10% margin of error
- Nuclear Plants:
 - Nuclear Safety exception
 - Special Study exception
- Grid Reliability Exception
- Wholly Disproportionate Exception
