

5/4/10 Board Meeting
Once Through Cooling
Deadline: 4/13/10 by 12 noon

From: Don Bennett <drbennett1@me.com>
To: <commentletters@waterboards.ca.gov>
Date: Wednesday, March 24, 2010 7:38 AM
Subject: Comment Letter — OTC Policy

Water board of California,

Please do not increase regulations on the use of sea water in the cooling of power plants. Our power prices are already high. These regulations will increase the cost to me, the consumer. Secondly, sea water use is an excellent way to preserve fresh water for our drought stricken state.

Concerned Citizen,

Donald R. Bennett, MD
