Dear Mr. Heckler:

I am pleased to submit the Revised Nuclear Review Committee Concerns Bechtel Response Document Revision 1 document to you. This document has incorporated the Review Committee Comments provided in Reference 3.

Additionally, I have attached Revision 2 to the JUOTC Final Phase 1 Third-Party Interim Technical Assessment for the Alternative Cooling Technologies or Modification to the Existing Once-through Cooling System for San Onofre Nuclear Generating Station. We did not get any additional Review Committee comments to this report since we issued Revision 1; therefore I incorporated the comments into the report that were documented in the Nuclear Review Committee Concerns document provided in Reference 3 concerns document where appropriate.

Based of Reference 2, I believe that this will be the final issue of the Interim Report.
