

**Schedule for the Once-Through Cooling Policy Section 3.D requirements  
addressing the Nuclear Facility Special Study submission to the  
State Water Board**

Section 3.D of the Once-Through Cooling Policy requires nuclear facilities to conduct special studies that investigate alternatives for compliance to this Policy. The special studies must be performed by a third-party and the studies shall be overseen by a Review Committee. The Review Committee is required to provide the Final Report to the State Water Board. The State Water Board will consider its results and modify the Policy as necessary.
