Nathan Hardebeck, CESCL, CISL, CPSWQ, CPISM, PSCIC, MT SWPPP Admin
CWT Training Academy

Dear Mr. Hardebeck,

Thank you for submitting the proposal to administer a Qualified Storm Water Pollution Prevention Plan (SWPPP) Developer prerequisite course, WCA0102, on behalf of CWT Training Academy. State and Regional Water Board staff evaluated CWT Training Academy's proposal and found that the course satisfies the minimum prerequisite criteria and provides an acceptable level of training.

In accordance with the 2022 Construction Stormwater General Permit, Section V.H, I hereby approve CWT Training Academy's WCA0102 as an acceptable prerequisite course for the Qualified SWPPP Developer certification, when combined with an existing Qualified SWPPP Practitioner (QSP) certification or the successful completion of a QSP prerequisite.

The course is now listed on the State Water Resources Control Board's [2022 Construction Stormwater General Permit webpage](https://www.waterboards.ca.gov/water_issues/programs/stormwater/construction/general_permit_reissuance.html) (https://www.waterboards.ca.gov/water_issues/programs/stormwater/construction/general_permit_reissuance.html).

Please contact Brandon Roosenboom at Brandon.Roosenboom@waterboards.ca.gov with any additional questions.

Sincerely,

A handwritten signature in black ink, appearing to read "P. Crader".

Phillip Crader, Deputy Director
Division of Water Quality

E. JOAQUIN ESQUIVEL, CHAIR | ERIC OPPENHEIMER, EXECUTIVE DIRECTOR
