Subject: Question/Concern about DRAFT stormwater permit

To whom may concern:

This is related to the Draft State General Industrial Activity Stormwater Permit.

Since the Draft requires a lot of more stricter regulations when the water sample limits are exceeded, our concern is what happens to the companies that have Commingling stormwater on their sampling point? Will the company be penalized or raised to higher Levels (2 or 3) due to this commingling water sample exceeding the limits?

Thank you,
Winnie Lau
