Subject: Comment Letter- Draft Construction Permit

To Whom It May Concern:

As a graduate of the National Stormwater Center's Certified Stormwater Inspector course I wish to ask that this course be recognized as a qualifying course for SWPPP Practitioners under the new draft permit. The course was extremely well taught with an emphasis on field inspections, water sampling, and law interpretation. All graduating participants left with added knowledge that will enable them to be adept field inspectors and SWPPP Practitioners. I know that the EPA will have additional course requirements for SWPP Developers, and feel that this is appropriate. I ask that you please consider the National Stormwater Center's Certified Stormwater Inspector course as meeting the Practitioner training requirements of the new Permit.

Thank you,

Austin D. Edwards
