Subject: Comment letter-Draft Construction Permit

Dear Janine Townsend; Please do not adopt the draft construction permit. The proposed new rules for construction runoff are far to restrictive and costly and should be modified before being adopted.

A much better idea would be to collect a fee and use the funds to handle area wide drainage basins clean up and prevention. New development will affect only a small percentage of the drainage, while doing nothing to help clean up the other 98% of the existing basin.

Sincerely, Walter Heiberg

Walter Heiberg
