Mr. Paul Bauer
Healy Systems, Inc.
17 Hampshire Drive
Hudson, New Hampshire 03051

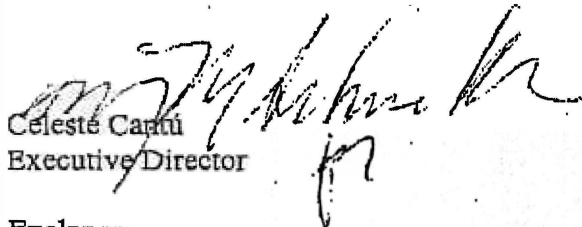

Dear Mr. Bauer:

HEALY SYSTEMS, INC., PHASE II ENHANCED VAPOR RECOVERY (EVR) SYSTEM

As you know, Assembly Bill 2955 (Statutes 2004, Chapter 649) added a provision to the Health and Safety Code (H&SC), chapter 6.7, section 25290.1.2(a). This section requires the Air Resources Board (ARB) and State Water Resources Control Board (State Water Board) to determine collaboratively, to the best of their knowledge and using existing resources, that the equipment that meets the ARB's Enhanced Vapor Recovery (EVR) requirements also meets UST statutory requirements. We discussed this requirement in a joint letter from the Air Resources Board and the State Water Board to you dated January 24, 2005.

On April 6, 2005 we received on your behalf the enclosed signed statement by a California Professional Engineer. Based on this statement and the information that Healy Systems, Inc. provided to us, we have found no evidence that this EVR System conflicts with H&SC Chapter 6.7. This determination assumes the EVR System is installed in accordance with applicable ARB Executive Orders and in accordance with manufacturers' instructions, as required by State Water Board regulations. Therefore, pursuant to H&SC section 25290.1.2(a), the State Water Board certifies that, to the best of our knowledge, the Healy Phase II EVR system meets the requirements of H&SC Chapter 6.7.

Sincerely,

Celeste Cantu
Executive Director

**Certification Statement for
Healy Systems, Inc. Phase II Enhanced Vapor Recovery System¹**

Based on a careful review and analysis, I hereby certify that Healy Systems, Inc. Phase II Enhanced Vapor Recovery (EVR) System, which is under consideration, for California Air Resources Board (ARB) certification, meets the requirements of Chapter 6.7 of the California Health and Safety Code (the State Water Resources Control Board's underground storage tank requirements, including enhanced leak detection and continuous vacuum, pressure, or hydrostatic monitoring). Furthermore, the Healy Systems, Inc. Phase II EVR System warranty is valid as long as the system is installed, operated, and maintained according to manufacturer's instructions and in a manner that does not exceed the limitations (e.g., tank capacity, fueling points, throughputs, etc.) described below.

Limitations:

The system must be installed, maintained and operated in accordance with the California Air Resources Board "Executive Order VR-201-A", Healy Systems, Inc. Phase II Enhanced Vapor Recovery (EVR) System Not Including ISD and the CARB - Approved (IOM) "Installation, Operation and Maintenance Manuals" which is part of the Executive Order.

¹ This certification statement is part of the guidelines developed by the California Air Resources Board (ARB) and State Water Resources Control Board (State Water Board) to implement the provisions of Assembly Bill 2955 (Statutes 2004, Chapter 649: McCarthy).

² This certification is based on the presumption that the Healy Systems, Inc. Phase II EVR System is constructed, installed, maintained, and operated in accordance with all applicable requirements of Chapter 6.7 of California Health and Safety Code and Chapter 18 of California Code of Regulations.
