O P I N I O N

On April 2, 1923, Earl J. Wolfe filed his application No. 3336 for a permit to appropriate unappropriated water from Santa Clara River, in Los Angeles County, for use for agricultural purposes. Thereafter protest was filed by Joseph E. Youngblood and in due course the matter of this application came on for hearing before the Division of Water Rights.

Subsequent to the hearing on the matter of this application, a field examination was made by T. R. Simpson, an engineer for the Division of Water Rights, on June 12, 1924, for the purpose of obtaining additional data. With these data together with those developed at the hearing before applicant and protestant, an agreement was entered into on the eighth day of August, 1924, whereby the protest to this application was withdrawn. This agreement is on file with the records of this application before the Division of Water Rights.

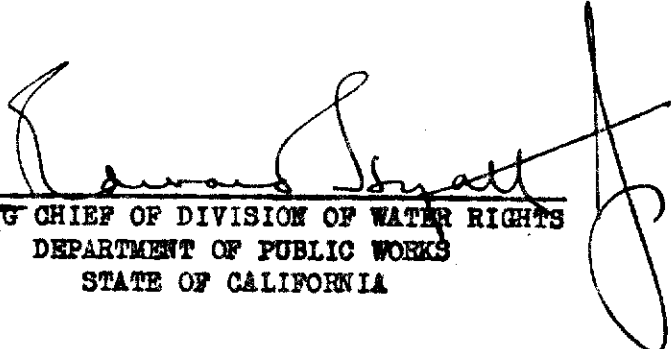

The above mentioned agreement disposes of the protest to this application, and nothing now stands to prevent issuance of permit.

ORDER

Application No. 3336 for a permit to appropriate water having been filed with the Division of Water Rights as above stated, protest having been filed, a public hearing having been held and the Division of Water Rights now being fully informed in the premises,

IT IS HEREBY ORDERED, that Application No. 3336 be approved and that a permit be granted the applicant subject to such of the usual terms and conditions as may be appropriate.

Dated at Sacramento, this sixteenth day of October, A. D. 1924.
