S. C. Whipple, Associate Hydraulic Engineer, for Gordon Zander,  
Principal Hydraulic Engineer, Division of Water Resources,  
Department of Public Works, State of California.

O P I N I O N

Application 11110 was filed with the Division of Water Resources

by Leonard Everett Goodman on July 17, 1945. Applicant proposes to divert 2.5 cubic feet per second from Clear Creek and 0.5 cubic foot per second from Owl Creek, tributaries to the North Fork of Feather River in Plumas County for power, mining, and domestic purposes.

The application was protested by D. M. Ward, who claims that the proposed appropriation will deprive him of water for mining and domestic purposes; by W. B. Perry and Miles Woodward, who claim the right to the use of water from Owl Creek for mining and domestic purposes and who also claim the ownership of land across which applicant proposes to construct his ditch and indicate that right of way will be denied; by Eli M. Piazzoni, who claims the ownership of land on Owl Creek at the applicant's proposed point of diversion and denies applicant right of access and right of way over his land and also the use of water under a claim of riparian right; and by Merrill Lucas, who claims a right to the use of water from the two streams under his prior Application 8996.

The stipulations to an informal hearing were signed by the applicant and protestants and a field investigation was made by an engineer of this office on September 11, 1946.

It is, however, unnecessary to consider the results of this investigation as the applicant, by letter dated December 20, 1946, and received in this office on December 26, 1946, requested that Application 11110 be cancelled.

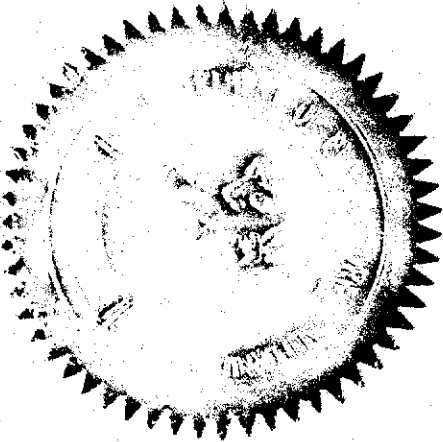

#### ORDER

Application 11110 for a permit to appropriate water having been filed with the Division of Water Resources as above stated, protests having been filed, a field investigation by the Division having been

made and the applicant having subsequently requested the cancellation of Application 11110:

IT IS HEREBY ORDERED that Application 11110 be rejected and cancelled upon the records of the Division of Water Resources.

WITNESS my hand and the seal of the Department of Public Works of the State of California, this 6th day of January, 1947.

  
EDWARD HYATT, STATE ENGINEER
