OPINION

Application 11403, having been filed and a protest against approval thereof having been received, was regularly set for a field investigation of which applicant and protestant were duly notified and did agree, by signed stipulations, to abide by the report and subsequent findings of said investigation.

The report of the investigation indicates that, as the result of a conference held at the conclusion of the investigation, the protestant was

agreeable to withdrawal of her protest and in consequence, there was received on September 23, 1947, a written request for withdrawal of said protest.

The uses to which applicant proposes to put the waters sought are beneficial ones and since there would now appear to be no bar to approval of Application 11403, it is the opinion of the State Engineer that said application should be approved subject to the usual terms and conditions.

ORDER

Application 11403 for a permit to appropriate water having been filed with the Division of Water Resources as above stated, a protest having been filed, a field investigation having been made, a stipulated hearing having been held in accordance with Article 13, Section 733b of the California Administrative Code and the State Engineer now being fully informed in the premises:

IT IS HEREBY ORDERED that Application 11403 be approved for the amount and season of use applied for subject to such of the usual terms and conditions as may be appropriate.

WITNESS my hand and the seal of the Department of Public Works of the State of California, this *22nd* day of *October*, 1947.

*Edward Hyatt*  
EDWARD HYATT, STATE ENGINEER
