12 lands; as distinguished from released stored water, and also from "foreign
13 water" directly conveyed to a stream from another watershed.

14 (45th) IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the term
15 "available water supply of South Fork of Pit River and its tributaries," as

17 for diversion by all of the various diversions enumerated in Schedule 3 hereof;
18 said "available water supply of South Fork of Pit River and its tributaries" at
19 any given time to be determined by combining the total of all quantities of

23 (46th) IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the term
24 "available water supply of Fitzhugh Creek and its tributaries," as herein used,
25 shall be construed to designate the total amount of water available for diver-

27 "available water supply of Fitzhugh Creek and its tributaries" at any given
28 time to be determined by combining the total of all quantities of water being
29 diverted from the stream system under the rights set forth in said Schedule 2
30 with the flow of Fitzhugh Creek immediately below all diversions at the time.
31

5 and its tributaries, through the agency of a water master, whenever necessity
6 for such water master service is found to exist by said Division, and that the
7 costs and expenses of such water master service shall be borne by the parties
8 hereto, said costs and expenses to be apportioned among said parties in accord-

15 engineer appointed by the Division of Water Resources, such permanent diversion
16 works, headgates and measuring devices in their respective ditches as shall be
17 reasonably required and approved by said Division; such installations to be
18 made prior to July 1, 1935, or such later date as may be ordered by the above

23 their respective maximum continuous flow allotments, as provided in Schedule 5
24 hereunto annexed and made a part hereof, bear to the total of such maximum con-

26 (49th) IT IS FURTHER ORDERED, ADJUDGED AND DECREED that no party
27 herein adjudged and decreed a right to divert water shall divert from said
28 South Fork of Pit River and its tributaries and branches at any time, a quantity

30 being put to beneficial use by said party.

31

2 and decree supersedes all former judgments and decrees determining the rights
3 of the parties hereto in and to the waters of South Fork of Pit River and its
4 tributaries, and in and to the use thereof, except that nothing herein contain-
5 ed shall, or shall be construed to, alter, change or modify the apportionment
6 of the waters which may be diverted into the Masters ditch as among and between
7 the respective owners entitled thereto as heretofore determined by this court
8 in any prior judgment or decree or prior judgments and decrees; that this judg-
9 ment and decree shall govern and control the total amount of water to which the
10 users from said Masters ditch shall at any time be entitled and which may at
11 any time be diverted into said ditch from South Fork of Pit River but shall
12 not require any other or different apportionment of said total amount among
13 or between said users than as may have been heretofore adjudicated; that the
14 apportionments to the users from said Masters ditch which are hereinafter made
15 in Schedule 3 hereof are in accord with the apportionments heretofore determined
16 by this court as applicable to said allotment to said ditch; that the apportion-
17 ment of said allotment as provided in said Schedule 3 shall be the basis for
18 the apportionment of costs as hereinafter decreed and for the apportionment
19 of the cost of water master service as may hereafter be provided pursuant to
20 law; and that, subject to the above exception relative to the apportionment of
21 flow after its diversion into the Masters ditch, this judgment and decree
22 adjudicates the entire water right of each and every party hereto as against
23 each and every other party hereto in and to the waters of said South Fork of
24 Pit River and its tributaries, and in and to the use thereof.

25 (51st) IT IS FURTHER ORDERED, ADJUDGED AND DECREED that each and
