ORDER GRANTING RECONSIDERATION  
OF DECISION 1624

BY THE BOARD:

The Board issued Decision 1624 on April 20, 1989 which authorized issuance of a permit on Application 28158 for diversion of water by Cambria Community Services District from the underflow of Santa Rosa Creek in San Luis Obispo County. The permit was authorized subject to specified terms and conditions. On May 19, 1989 the Cambria Community Services District (District) filed a petition for reconsideration of Decision 1624 alleging that certain provisions of the decision are not supported by substantial evidence and that relevant new evidence has become available since the close of the hearing. The petition for reconsideration requests that the Board augment the record with specified evidence which was not available at the time of the hearing and modify certain provisions of the decision regarding surface flow monitoring requirements, subsurface water monitoring

requirements and restrictions intended to prevent possible ground deformation due to District pumping.

The Board concludes that the issues raised in the petition for reconsideration merit further evaluation and that Decision 1624 should be reconsidered. The issues raised in the petition will be addressed in a future Board order.

ORDER

IT IS HEREBY ORDERED that Decision 1624 shall be reconsidered and that the issues raised in the May 19, 1989 petition for reconsideration and related submittals shall be addressed in a future Board order.

CERTIFICATION

The undersigned, Administrative Assistant to the Board, does hereby certify that the foregoing is a full, true, and correct copy of an order duly and regularly adopted at a meeting of the State Water Resources Control Board held on July 5, 1989.
