MINOR
PETITION FOR CHANGE
(WATER CODE 1700)

Application X Point of Diversion, 9000 Point of Rediversion, 5405 Permit, X Place of Use, 3555 License, X Purpose of Use, Statement or Other

I (we) hereby petition for change(s) noted above and shown on the accompanying map and described as follows:

Point of Diversion or Rediversion (Give coordinate distances from section corner or other ties as allowed by Cal CR 715, and the 40-acre subdivision in which the present & proposed points lie.)
Present See Attached

Proposed S.E. 1/4 Sec. 23, T2N R4W S.B. B&M; located at N 34 degree 14.412, W 117 degree 15.987; different location on shoreline of Lake Gregory

6/14/04
LETTER

Place of Use (If irrigation then state number of acres to be irrigated within each 40-acre tract.)
Present Within Section 13, 14, 15, 22, 23, 24, 25 and 26. T2N, R4W, S.B. B&M, as shown on map previously filed with State Engineer.

Proposed Same; additonal 5 acres to be irrigated, more or less in Section 23.

Purpose of Use
Present Domestic and Recreational Use.

Proposed Domestic, Recreational, and Irrigation Use.

Does the proposed use serve to preserve or enhance wetlands habitat, fish and wildlife resources, or recreation in or on the water (See WC 1707)? No
(yes/no)

- GIVE REASON FOR PROPOSED CHANGE: To provide limited irrigation of turf playing fields; please see attached project description and maps.
- WILL THE OLD POINT OF DIVERSION OR PLACE OF USE BE ABANDONED? No
(yes/no)
- WATER WILL BE USED FOR _____ PURPOSES.

I(we) have access to the proposed point of diversion or control the proposed place of use by virtue of? Ownership
(ownership, lease verbal or written agreement)

Are there any persons taking water from the stream between the old point of return flow and the new point of return flow? No
(yes/no)

If by lease or agreement, state the name and address of party(s) from whom access has been obtained. Attach additional pages if needed.
N/A

Give name and address of any person(s) taking water from the stream between the present point of diversion or rediversion and the proposed point of diversion or rediversion, as well as any other person(s) known to you who may be affected by the proposed change.
None Known

THIS CHANGE DOES NOT INVOLVE AN INCREASE IN THE AMOUNT OF THE APPROPRIATION OR SEASON OF USE.
I (we) declare under penalty of perjury that the above is true and correct to the best of my (our) knowledge and belief.

Dated JANUARY 13 2004 at SACRAMENTO, California

**ENVIRONMENTAL INFORMATION
FOR PETITIONS**

(THIS IS NOT A CEQA DOCUMENT)

APPLICATION NO. 9000

PERMIT NO. 5405

LICENSE NO. 3555

The following information will aid in the environmental review of your change petition as required by the California Environmental Quality Act (CEQA). IN ORDER FOR YOUR CHANGE PETITION TO BE ACCEPTED AS COMPLETED, ANSWERS TO THE QUESTIONS LISTED BELOW MUST BE COMPLETED TO THE BEST OF YOUR ABILITY. Failure to answer all questions may result in your change petition being returned to you, causing delays in processing. If you need more space, attach additional sheets. Additional information may be required from you to amplify further or clarify the information requested in this form.

DISCRIPTION OF CHANGES TO PROJECT

1. Provide a description of the proposed changes to your project, including but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, changes in land use, and project operational changes, including changes in how the water will be used.

This project is a petition for change to add irrigation as a purpose of use to existing
License #3555. Additionally, the point of diversion must be re-located within Lake Gregory
to a different location, but still along the shoreline of Lake Gregory. The Irrigation to take
place under this license is a maximum of 4 acre feet annually to the turf playing fields in a
county park, which lies within the currently - permitted place of use for License #3555.
Please see attached project description and maps.

GOVERNMENTAL REQUIREMENTS

Before a final decision can be made on your change petition, we must consider the information contained in an environmental document prepared in compliance with the requirements of CEQA. If an environmental document has been prepared for your proposed changes by another agency, we must consider it. If one has not been prepared, a determination must be made as to who is responsible for the preparation of the environmental document for your change petition. The following questions are designed to aid us in that determination.

2. Contact your county planning or public works department for the following information:
- a. Person contacted Randy Scott Date of contact _____
Department SBC Land Use Services Telephone (909) 387-4147
 - b. Assessor's Parcel No. 033 7202 90000; 034 003 201 0000
 - c. County Zoning Designation CF/CG-SCp
 - d. Are any county permits required for your proposed changes? No
If yes, check appropriate space below:
_____ Grading Permit, _____ Use Permit, _____ Watercourse
Obstruction Permit, _____ Change of Zoning, _____ General Plan
Change, Other (explain): _____
 - e. Have you obtained any of the required permits described above? N/A
If yes, provide a complete copy of each permit obtained.
3. Are any additional state or federal permits required for your proposed changes? No (i.e., from Federal Energy Regulatory Commission, U.S. Forest Service, Bureau of Land Management, Soil Conservation Service, Department of Water Resources (Division of Safety of Dams), Reclamation Board, Coastal Commission, State Lands Commission, etc.) For each agency from which a permit is required provide the following information:
- Permit type _____
Person (s) contacted _____ Agency _____
Date of contact _____ Telephone () _____
4. Has any public agency prepared an environmental document for any aspect of your proposed changes? No

If so, please submit a copy of the latest environmental document (s) prepared, including a copy of the notice of determination adopted by the public agency. If not, explain below whether you expect that a public agency other than the State Water Resources Control Board will be preparing an environmental document for your change petition or whether the applicant, if it is a California public agency, will be preparing the environmental document for your change petition:

Note: When completed, please submit a copy of the final environmental document (including notice of determination) or notice of exemption to the State Water Resources Control Board. Processing of your change petition cannot proceed until such documents are submitted.

5. Will your proposed changes, during construction or operation, generate waste or wastewater containing such things as sewage, industrial chemicals, metals, or agricultural chemicals, or cause erosion, turbidity or sedimentation? Unknown If so, explain: Based on possible refitting or drilling a new well - short term turbidity may result.
-
-

If yes or you are unsure of your answer, contact your local Regional Water Quality Control Board for the following information (See attachment for address and telephone number):

Will a waste discharge permit be required for your petition? No

Person contacted _____ Date of contact _____

What method of treatment and disposal will be used? _____

6. Have any archeological reports been prepared on this project, or will you be preparing an archeological report to satisfy another public agency? No

Do you know of any archeological or historic sites located within the general project area?

_____ If so, explain: _____

ENVIRONMENTAL SETTING

7. Attach **THREE COMPLETE SETS** of color photographs, clearly dated and labeled, showing the vegetation currently existing at the following locations:

- a. ~~Along~~ the stream channel immediately downstream from the proposed point(s) of diversion
- b. ~~Along~~ the stream channel immediately upstream from the proposed point(s) of diversion
- c. At the place(s) where the water is to be used

Note: It is very important that you submit no less than three complete sets of photographs as required above. If less than three sets are submitted, processing of your change petition will be delayed until you furnish the remaining sets!

8. From the list given below, mark or circle the general plant community types which best describe those which occur within your project area (Note: See footnote denoted by * under Question 11 below):

Tree Dominated Communities

Subalpine Conifer
 Red Fir
 Lodgepole Pine
 Mixed Conifer
 Sierran Mixed Conifer
 White Fir
 Klamath Mixed Conifer
 Douglas-Fir
 Jeffrey Pine
 Ponderosa Pine
 Eastside Pine
 Redwood
 Pinyon-Juniper
 Juniper
 Aspen
 Closed-Cone Pine-Cypress
Montane Hardwood-Conifer
 Montane Hardwood
 Valley Foothill Hardwood
 Blue Oak Woodland
 Valley Oak Woodland
 Coastal Oak Woodland
 Valley Foothill Hardwood-Conifer
 Blue Oak-Digger Pine
 Eucalyptus
Montane Riparian
 Valley Foothill Riparian
 Desert Riparian
 Palm Oasis
 Joshua Tree

Shrub Dominated Communities

Alpine Dwarf-Shrub
 Low Sage
 Bitterbrush
 Sagebrush
 Montane Chaparral
Mixed Chaparral
 Chamise-Redshank Chaparral
 Coastal Scrub
 Desert Succulent Shrub
 Desert Wash
 Desert Scrub
 Alkali Desert Scrub

Herbaceous Dominated Communities

Annual Grassland
 Perennial Grassland
 Wet Meadow
 Fresh Emergent Wetland
 Saline Emergent Wetland
 Pasture

Aquatic Communities

Riverine
 Lacustrine
 Estuarine
 Marine

Developed Communities

Cropland
 Orchard-Vineyard
 Urban

Literature source: Mayer, K.E., and W.F. Laudenslayer, Jr., (eds). 1988. A Guide to Wildlife Habitats of California. California Department of Forestry and Fire Protection, Sacramento. 166 pp. (Note: You may view a copy of this document at our public counter at the address given

at the top of this form or you may purchase a copy by calling the California Department of Fish and Game, Wildlife Habitat Relationships (WHR) Program at (916) 653-7203).

9. Provide below an estimate of the type, number, and size (trunk/stem diameter at chest height) of trees and large shrubs that are planned to be removed or destroyed due to implementation of the proposed changes. Consider all aspects of your change petition, including changes in diversion structures, water distribution and use facilities, and changes in the place of use due to additional water development.

None

FISH AND WILDLIFE CONCERNS

10. Identify the typical species of fish which occur in the source(s) from which you propose to divert water and discuss whether or not any of these fish species or their habitat has been or would be affected by your proposed changes. (Note: See footnote denoted by * under Question 11 below):

Trout, Blue Gill, Catfish occur near source - none will be affected.

11. Identify the typical species of riparian and terrestrial wildlife in the area and discuss whether or not any of these species and/or their habitat has been or would be affected by your proposed changes through construction of additional water diversion and distribution works and/or changes in land use in the place of water use. (Note: See footnote denoted by * below):

Drilling a new well may cause short term, localized, damage to a very limited area. No mature trees would be removed, and the willows and other vegetation on the shoreline would recover quickly.

*Note: The purposes of Question 10 and 11 are to provide a preliminary assessment of the presence of typical plant and animal species in the area and whether these species might be affected by your proposed changes. Detailed site surveys to quantify populations of specific species or determine the presence of rare or endangered species may be required at a later date. It is very important that you answer these questions accurately. If you are unable to obtain appropriate answers from your local California Department of Fish and Game biologists (See attachment for address and telephone number) or you do not have adequate information or expertise to complete your answers, you should hire a fishery consultant and/or a wildlife consultant to review your project and prepare suitable answers for you. For information on available qualified fishery or wildlife consultants near you, consult your local telephone directory yellow pages under Environmental and Ecological Services, or call the California Environmental Protection Agency, Registered Environmental Assessor (REA) Program, at (916) 324-6881 or the University of California, Cooperative Extension Service (See your local telephone directory white pages).

12. Do your proposed changes involve any construction or grading-related activity which has significantly altered or would significantly alter the bed or bank of any stream or lake? Unknown.

If so, explain: Based upon existing pump intake and/or well installation, some lake bed alteration may occur - but not to a significant level.

CERTIFICATION

I hereby certify that the statements I have furnished above and in the attached exhibits are complete to the best of my ability, and that the facts, statements, and information presented are true and correct to the best of my knowledge.

Attachment to Minor Petition for Change and
Accompanying Environmental Information Form
(License 3555, Permit 5405, Application 9000)

PROJECT DESCRIPTION

This minor petition for change would change the existing point of diversion on the shoreline of Lake Gregory with another point of diversion from Lake Gregory. The proposed new point of diversion would be from a well sited near the opposite side of Lake Gregory, which is currently heavily silted. Use of the new point of diversion would involve re-drilling and rehabilitating the well, or drilling a new well immediately adjacent to the silted well.

This petition for change would also add irrigation as a purpose of use, not to exceed 4 acre feet annually. The water so diverted would be applied to turf playing fields in a county park immediately adjacent to the well and Lake Gregory, via a sprinkler system during the periods of April 1 to October 31 annually. General project maps depicting the location of the new point of diversion, as well as the method and place of use, are appended to this description.

Well production and application rates will be well below 3 cfs. Accordingly, pursuant to Water Code section 1704.4, the County of San Bernardino has submitted this petition as a "minor petition for change." The County of San Bernardino therefore requests that the Division of Water Rights issue an order acting on this petition pursuant to Water Code section 1704.3.
