RE: \$850.00 Fish & Game Fee

As per your forms and handbooks, we believe we have filled out all of the appropriate forms. We have included maps, aerial photos, right of way agreements and color photographs, as required. We have also included a check payable to you for the \$100.00 filing fee. As far as the Department of Fish and Game's check for \$850.00, we respectfully request to be exempt from this fee and ask that you consider the following reasons. We will, however, comply with whatever you decide.

1. The spring has been an actively permitted spring since 1931.
2. I am a direct descendant of the original developer/permittee (Edmund Robinson) of the spring.
3. We are not creating a new diversion of water.
4. We are tapping into the original and existing water pipe.
5. All construction will take place on our own property.
6. We will be trenching only on an existing fire break trail.
7. The original water pipe installed in 1931 could never sustain the water pressure required to have the unused water backup in the line back to the spring one mile away.
8. We will be using only the excess water that would normally spill out on the ground at the original homestead house.

As stated above, we will comply with your decision and we appreciate your consideration.

Respectfully submitted,

Frank and Claudia Jones
