Petition for Change

Petition for Extension of Time

Permit 13936, Application 17587

Before the State Water Resources Control Board (SWRCB) can approve a petition to change your water right permit or a petition for extension of time to complete use, the SWRCB must consider the information contained in an environmental document prepared in compliance with the California Environmental Quality Act (CEQA). This form is not a CEQA document. If a CEQA document has not yet been prepared, a determination must be made of who is responsible for its preparation. As the petitioner, you are responsible for all costs associated with the environmental evaluation and preparation of the required CEQA documents. Please answer the following questions to the best of your ability and submit any studies that have been conducted regarding the environmental evaluation of your project. If you need more space to completely answer the questions, please number and attach additional sheets.

1. DESCRIPTION OF PROPOSED CHANGES OR WORK REMAINING TO BE COMPLETED

For a petition to change, provide a description of the proposed changes to your project including, but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, increase in water diversion and use (up to the amount authorized by the permit), changes in land use, and project operational changes, including changes in how the water will be used. For a petition for extension of time, provide a description of what work has been completed and what remains to be done. Include in your description any of the above elements that will occur during the requested extension period.

PERMIT 13936 (APPLICATION 17587)

1. Description of Changes to Project

Millview County Water District holds Permit 13936 (Application 17587). This right allows Millview to pump from Millview Well Nos. 1 and 3 located in the SE 1/4 of NE 1/4 and NE 1/4 of SE 1/4, respectively, of projected Section 5, T15N, R12W, MDB&M. This Petition requests a change in the place of use, points of diversion and purpose of use authorized under Permit 13936.

This Petition requests the addition of four existing Russian River diversion facilities and an existing Well Field as PODs and the removal of Well No. 1 (abandoned in 1989) under Permit 13936. The Russian River and Well Field facilities will be used in conjunction with existing Well No. 3 (referred to herein as POD No. 2) to provide service to Millview's customers. The Upper and Lower Russian River diversion facilities (proposed POD Nos. 3 and 4) and the Well Field (proposed POD No. 5) are all located within the NE 1/4 of SE 1/4 of projected Section 5, T15N, R12W, MDB&M. The Well Field is a 7.15 acre parcel that contains multiple wellheads, a 0.5-acre gravel recharge basin and a treatment plant. Water diverted from proposed POD Nos. 3 and 4 will be conveyed directly to Millview's treatment plant or used to recharge the existing gravel basin to raise the water levels in the well field. The remaining Russian River diversion facilities proposed to be added to Permit 13936 by this Petition are referred to as POD Nos. 6 and 7 (Masonite Well Nos. 3 and 5, respectively). POD Nos. 6 and 7 are located within the NW 1/4 of the SW 1/4 of projected Section 9, T15N, R12W, MDB&M.

The Petition also requests an increase in the place of use authorized under the Permit to include surveyed, fractional, or projected Section 2, 3, 4, 5, 6, 7, 8, 9, 10, 16, 17 and 18 of T15N, R12W MDB&M and surveyed, fractional, or projected Sections 20, 21, 28, 29, 30, 31, 32, 33, and 34 of T16N, R12W, MDB&M. The place of use is also shown on the map labeled Attachment 2 of the Petition for Change.

Additionally, the Petition requests the addition of domestic and irrigation as purposes of use.

No other changes will result from this Petition.
